

MEDKAYFAB DERMATOLOGY WRESTLING: THE GREAT BARRIER BRAWL

Uncle FrizzleBob's
Krazy Kayfabizzaro Komik Kards

*It's not just a rash,
it's a border war.
Stay fluffy!*

Keratin-Kevin (The Brick)

STAT: 28-day cycle

POWER: The Cornified Envelope. Transforms from a living basement worker to dead waterproof stone.
LORE: Whipped to the top in only 4 days doring Psoriasis, resulting in unfinished scale-ruins.

Desmo the Glue

STAT: Desmoglein 1 & 3

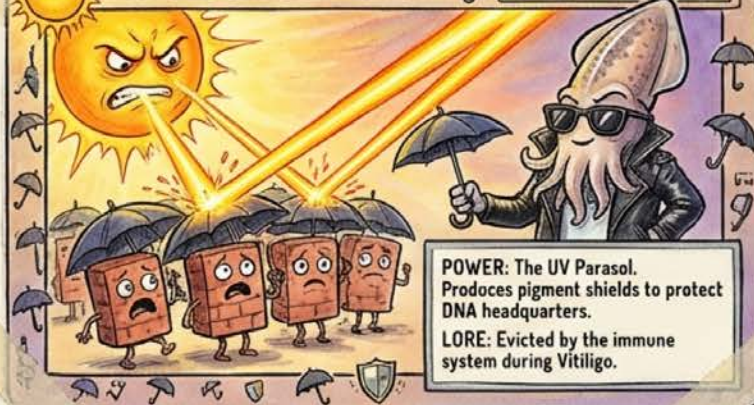

POWER: The Tight Grip. Holds Kevins together so the wall doesn't disintegrate at a touch.
LORE: Kidnapped by Pemphigus assassins, causing a positive Nikolsky sign (the wall crumbles).

Mel the Shield-Maker

STAT: Neural Crest origin

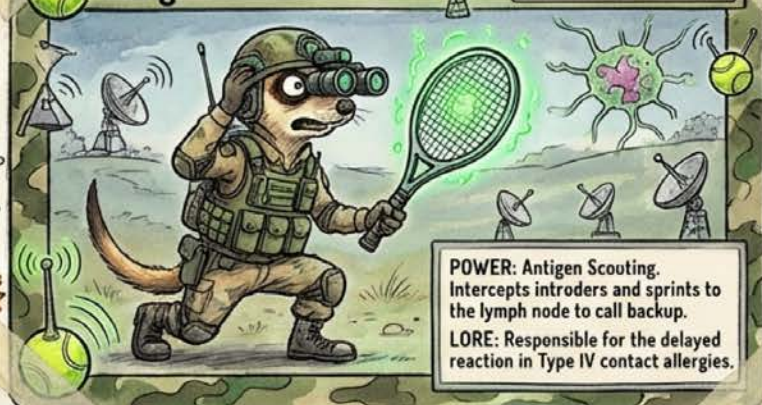

POWER: The UV Parasol. Produces pigment shields to protect DNA headquarters.
LORE: Evicted by the immune system during Vitiligo.

Langerhans-Lance

STAT: Birbeck Granules

POWER: Antigen Scouting. Intercepts intruders and sprints to the lymph node to call backup.
LORE: Responsible for the delayed reaction in Type IV contact allergies.

Call Doc
Fri rizzle!

Psoriasis-Pete (The Silver Scaler)

STAT: Parakeratosis

POWER: The Auspitz Move.
Scrape off Pete's armor, and he bleeds from capillary leaks.
LORE: T-cell driven turbo-reconstruction. Loves the Koebner phenomenon.

KayfaBINGO!
The wall is falling!

Atopic-Alice (The Leaky Wall)

STAT: Filaggrin defect

POWER: The Scratch Cycle.
A leaky wall lets allergens seep in, triggering the itch-alarm.
LORE: Part of the Atopic Triad. Loves flexures and hates soap.

Pemphigus-Pam (The Fragile Blister)

STAT: Suprabasal clefting

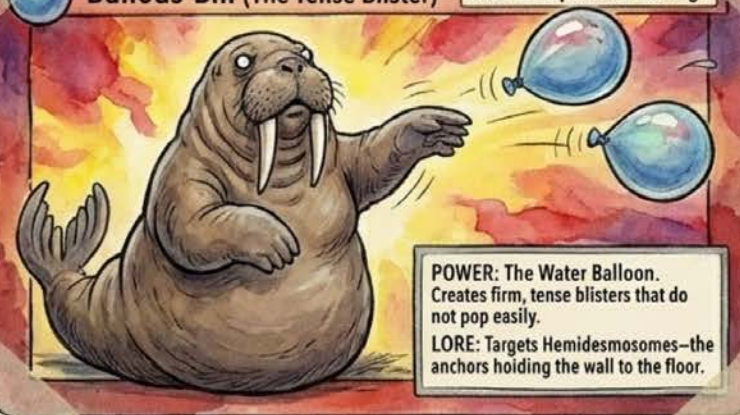

POWER: The Flaccid Burst.
Creates thin blisters that pop instantly, leaving raw flesh.
LORE: Anti-Desmoglein 3 antibodies destroy the bond just above the foundation.

Bullous-Bill (The Tense Blister)

STAT: Subepidermal cleavage

POWER: The Water Balloon.
Creates firm, tense blisters that do not pop easily.
LORE: Targets Hemidesmosomes—the anchors holding the wall to the floor.

Impetigo-Immy (The Honey-Crust)

STAT: *S. aureus* / *S. pyogenes*

POWER: The Golden Glue. Creates honey-colored crusts around the mouth.
LORE: Highly infectious. Exfoliatin toxins peel the top layer of skin.

Tinea-Ted (The Ringworm)

STAT: Dermatophyte hyphae

POWER: The Expanding Circle. Eats keratin and leaves red rings with central clearing.
LORE: Loves damp environments and is transmitted by pet sidekicks.

Erysipelas-Eric (The Sharp Border)

STAT: Superficial cellulitis

POWER: The Red Rising. A flaming red, sharply defined invasion with fever-fanfares.
LORE: Travels through lymphatic pathways, mostly Group A Strep.

Scabies-Scott (The Midnight Itcher)

STAT: Mite burrows

POWER: The Tunnel Trap. Digs finger-web tunnels and triggers extreme itch-alarm at night.
LORE: Type IV reaction to his waste. The whole stable must be treated!

What the FLUFF?!

Herpes-Hal (The Cold Sore)

STAT: Positive Tzanck prep

POWER: The Latent Sting. Sleeps in the ganglion, waking during stress to form vesicles.

LORE: Dew drops on a rose petal. Hal is a specialist in returning.

KayfaBINGO!

Zoster-Zane (The Shingles)

STAT: Dermatomal distribution

POWER: The Nerve Fire. Strictly follows one dermatome line and never crosses the midline.

LORE: After chickenpox, Zane hides. In weakness, he burns his way out.

Molluscum-Molly (The Pearl)

STAT: Central umbilication

POWER: The Dented Pearl. Small, flesh-colored papules with a central pit.

LORE: Common in kids. Contains highly infectious molluscum bodies.

Verruca-Vivian (The Wart)

STAT: HPV Keilocytes

POWER: The Rough Patch. Builds cauliflower growths with tiny black dot capillaries.

LORE: Hijacks keratinocyte division to fuel her fortress construction.

Basal-Cell-Bob (The Pearly One) STAT: Peripheral palisading

POWER: The Radent Ulcer. Grows slowly with a pearly sheen, but gnaws deeply through tissue.
LORE: Most common tumor. Rarely metastasizes, pro at local destruction.

Melanoma-Mel (The Dark Shadow) STAT: ABCDE / Breslow depth

POWER: The Stealth Attack. Disguises as a mole but sneaks into lymphatics.
LORE: The most dangerous opponent. His depth decides the match.

Diagnosis?! Measure the Breslow!

Squamous-Sam (The Scabby One) STAT: Keratin pearls

POWER: The Scaly Shield. Forms crusty, hyperkeratotic tumors that invade deep.
LORE: Appears on sun terraces (scalp, ears). High metastasis risk.

Actinic-Annie (The Sandpaper) STAT: Basal layer dysplasia

POWER: The Rough Warning. Feels like rough sandpaper on sun-exposed skin.
LORE: A precancerous lesion. Matures into Squamous-Sam if ignored.

Lichen-Planus-Leo (The Purple Polygon)

STAT: The 6 P's

POWER: The Purple Patch. Forms itchy, violet, flat lopped polygons with white face lines.

LORE: T-cell attack on the junction. Loves wrists and mucous membranes.

KayfaBINGO!

Rosacea-Rose (The Flush Queen)

STAT: Telangiectasia

POWER: The Central Flush. Sudden redness, papules, and visible vessels in the face center.

LORE: Triggered by spics, alcohol, heat. Can lead to rhinophyma in men.

B-m 111

Erythema-Nodosum-Nora

STAT: Septal panniculitis

POWER: The Shin Strike. Pressure-sensitive, red nodules on shins that heal like bruises.

LORE: Non specific alarm response to infections, sartoidosis, or meds.

Urticaria-Uri (The Hive)

STAT: Mast cell degranulation

POWER: The 24h-Ghost. Itchy wheals appear and vanish within 24 hours.

LORE: Histamine floods the tissue with water. Acute = allergy; Chronic = mystery.

W 111

HUMBUG!

SJS-Terry (The Skin-Slougher)

STAT: >30% detachment (TEN)

POWER: The Total Peel. Skin sloughs off in large sheets like a severe burn. Absolute emergency!

LORE: Massive keratinocyte apoptosis, usually a violent reaction to drugs.

KayfaBIZARRO!
Emergency pull!

Acanthosis-Ann (The Velvet Neck)

STAT: Hyperpigmentation

POWER: The Insulin Shadow. Dark, velvety skin changes in the axilla or neck.

LORE: A warning sign for insulin (Diabetes) or a hidden malignancy.

Vitiligo-Vince (The Ghost)

STAT: Melanocyte loss

POWER: The White Map. Erases pigmentation in irregular but sharply bordered areas.

LORE: Autoimmune attack against Mel the shield-maker. Skin left totally unprotected.

Derm-Herp-Harry

STAT: Celiac association

POWER: The Gluten Sting. Extremely itchy, herpes-like vesicles on elbows and knees.

LORE: Harry always teams up with gluten intolerance. Legendary, brutal itch.

Seborrheic-Sid (The Stuck-On)

STAT: Leser-Trélat sign

29

POWER: The Dirty Sticker. Looks like a greasy, brown wart just stuck onto the skin. Harmless.

LORE: If Sid appears in massive numbers suddenly, suspect an internal tumor.

Kaposi-Karl (The HIV-Marker)

STAT: HHV-8

31

POWER: The Vascular Bruise. Forms bluish-purple patches/nodules in immunocompromised wrestlers.

LORE: A vascular tumor triggered by Human Herpesvirus 8. Classic in AIDS.

Cherry-Angioma-Charlie

STAT: Cspillary proliferation

30

POWER: The Ruby Drop. Small, bright red, pinhead-sized dots that increase with age.

LORE: Harmless growths of small blood vessels. A purely aesthetic guest.

Pyogenic-Phil (The Bleeder)

STAT: Granulema pyogenicum

32

POWER: The Instant Bleed. A red, shiny nodule that bleeds like a fountain at the slightest touch.

LORE: NOT pus! An overgrowth of vessels following a minor injury.

Stay fluffy,
don't bleed
out!

33

Keloid-Kelly (The Overgrower)

STAT: Exceeds wound boundaries

POWER: The Rogue Scar. Won't stop building after an injury, growing far beyond the original wound.

LORE: More common in darker skin types. Often itches and is heavily therapy-resistant.

34

Ichthyosis-Ivan (The Fish Man)

STAT: Cornification disorder

POWER: The Scale Armor. Entire skin is dry and covered in large, adherent scales.

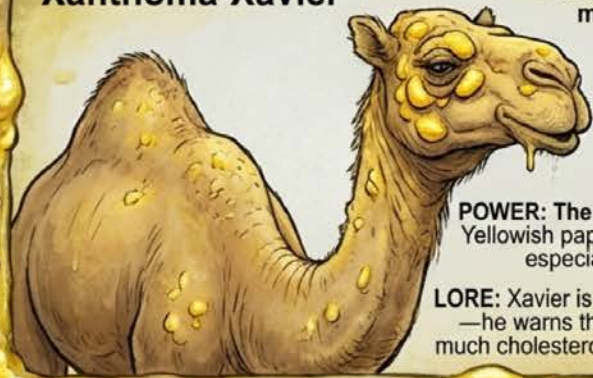

LORE: Kevin the brick fails to shed. Massive water loss through the defective barrier.

35

Xanthoma-Xavier (The Overgrower)

STAT: Lipid-laden macrophages

POWER: The Yellow Bump. Yellowish papules or plates, especially on eyelids.

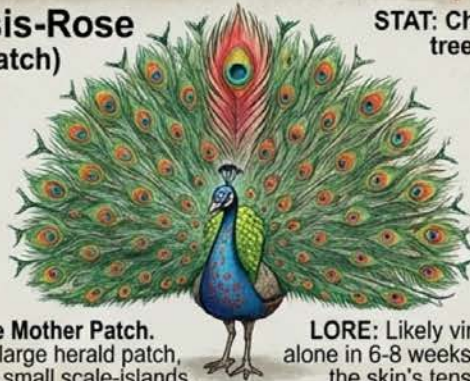

LORE: Xavier is a messenger—he warns that there is too much cholesterol in the blood.

36

Pityriasis-Rose (Herald Patch)

STAT: Christmas tree pattern

POWER: The Mother Patch. Starts with a large herald patch, then scatters small scale-islands.

LORE: Likely viral. Heals alone in 6-8 weeks. Follows the skin's tension lines.

KayfaBOGGLE!

37

Steroid-Stella (Cooling Shield)

STAT: Vasoconstriction

POWER: The Inflammation Freeze.
Puts out every fire instantly. All-purpose weapon for redness/itch.
LORE: Long-term use causes atrophy—thins the skin like parchment paper!

38

Retinoic-Rick (Skin-Reset)

STAT: Vitamin A / RAR

POWER: The Fast-Forward. Forces cells to mature and shed faster, clearing clogged pores.
LORE: Kryptonite for acne. Warning: highly teratogenic (no pregnancy!).

39

Benzoyl-Ben (Oxygen Bomb)

STAT: Oxidative stress

POWER: The Pimple Popper.
Releases free oxygen to simply blow up acne bacteria.
LORE: Radical cleaner. Ben will permanently bleach your linens and towels.

40

Calcipotriene-Cal (Growth Stopper)

STAT: Vitamin D3 analog

POWER: The Growth Stopper.
Tells Psoriasis-Pete's turbo-reconstruction to slow down.
LORE: Inhibits excessive cell division without thinning the skin like Stella does.

Lock and load the ointments!

41

Permethrin-Pat (Bug-Zapper)

STAT: Sodium channel
blocker

POWER: The Mite Assassin.
Paralyzes the nerves of Scabies-
Scott until they give up.

LORE: Standard scabies
treatment. **MUST** be applied
head-to-toe without any gaps.

42

Terbinafine-Terry

STAT: Squalene
epoxidase inhibitor

POWER: The Wall Breaker.
Prevents fungi from building
their cell membranes.

LORE: Terry accumulates in
the keratin and waits for the
fungus to try and eat it.

Target
acquired!

43

Dupilumab-Dupe (IL-Sniper)

STAT: IL-4 & IL-13
blocker

POWER: The Barrier Repair.
Shuts down the exact signals that destroy Atopic-Alice's wall. Targetet
cytokied weapon for severe eczema. Targeted cytokine communication block.

44

Hydroquinone-Hy (The Bleacher)

STAT: Tyrosinase
inhibitor

POWER: The Fade Out.
Stops Mel the shield-maker and lightens dark spots.
LORE: Bleaching cream. Interrupts pigment production directly in the basal lab.

45

Dermatoscope-Dash (The Lens)

STAT: 10x magnification

POWER: The Deep Look.

Look right through the stratum corneum to see Mel's true intentions.

LORE: Distinguishes a harmless sticker (Sid) from a dangerous shadow (Mel).

46

Wood-Light-Wanda (UV-Glow)

STAT: Blacklight 365nm

POWER: The Fluorescent Detective.

Makes fungi glow green and certain bacteria glow coral-red.

LORE: Highly effective at revealing Vitiligo-Vinca's white patches via stark contrast.

47

Patch-Test-Paul (Allergy Map)

STAT: 48h to 72h
reading

POWER: The Delayed Truth.

Tapes suspects to the back to see if an alarm triggers days later.

LORE: Finds the cause of Type IV contact allergies. Do NOT confuse with immediate prick tests!

48

Biopsy-Bill (The Punch)

STAT: Histopathology

POWER: The Final Word.

Takes a tiny piece of the wrestler to the lab to clarify true identity.

LORE: When Dash and Wanda are unsure, Bill provides the definitive microscopic truth.

Look closer, Doc!

GW

Georg v. Westphalen

49

Alopecia-AI (The Bald Spot)

STAT: Autoimmune attack

POWER: The Patchy Loss.

Hair falls out in smooth, circular patches.

LORE: The immune system launches a targeted attack specifically on hair follicles.

50

Minoxidil-Minnie & Fin STAT: Vasodilator & Blocker

POWER: The Root Booster.

Minnie opens vessels; Fin stops the toxin shrinking the roots.

LORE: Standard combo for male-pattern hair loss. Requires months of patience.

Save
the
roots!

51

Onychomycosis-Olli (Fungus)

STAT: Tinea unguium

POWER: The Crumbly Shield.

Makes nails yellow, thick, and brittle. Deeply stubborn tenant.

LORE: Creams cannot penetrate the hard nail-shield; requires systemic oral therapy.

52

Paronychia-Pat (Nail-Bed Riot)

STAT: Staph. aureus

POWER: The Throbbing Finger.

Painful, red swelling at the nail fold, packing a hidden pus depot.

LORE: Caused by minor injuries. If it throbs intensely, the pus demands to get out!

53

The Attending (The Boss)

STAT: 100% Visual Accuracy

POWER: The Pimp-Master.

LORE: Describe the primary lesion! Is it a macule, a papule, or a plaque? Identify the border or leave the clinic.

54

Quest 1: Silver & Blood

STAT: Clinical Vignette

LORE: 30-year-old wrestler has silvery scales on elbows. Scraping a scale leads to pinpoint bleeding.

QUEST: Name the character (Psoriasis-Pete) & explain the mechanism (Auspitz phenomenon).

BOARD EXAM: PASSED

BOARD EXAM: PASSED

55

Quest 2: The Midnight Tunnel

STAT: Clinical Vignette

Quest 2: The Midnight Tunnel

LORE: Student itching to death at night. Small burrows between fingers.

QUEST: Identify intruder (Scabies-Scott) & choose the weapon (Permethrin-Pat).

56

Quest 3: The Falling Mask

STAT: Clinical Vignette

Quest 3: The Falling Mask

LORE: After new meds, patient gets fever and skin peels off in massive sheets.

QUEST: Diagnose emergency (SJS/TEN-Terry) & explain the mechanism of destruction.

KayfaBINGO!

You survived the barrier brawl! Stay fluffy!
