

MedKayfab Urology Wrestling: The Renal Reservoir

Master the Flow, Control the Pressure

Your job as the Plumbing-Strategist is to ensure the Reservoir stays at the right pressure and the Excretion-Highways remain open. We defend the structural integrity of the lower basin.

Frizzle Manifesto:

We don't do dry lists here!
The human mind evolved for NARRATIVE.
Welcome to the MedKayfab character-
-based simulation.
Every Wrestler has a signature move.
Learn the mechanics, win the match.

Stay
fluffy!

BPH-the-Gatekeeper

IPSS > 20
PSA < 4
Transition Zone

POWER: The Exit-Squeeze. Grows inward in the Transition-Alley, narrowing the Urethra-Tunnel.

LORE: Driven by DHT. Stromal/epithelial cells multiply, causing Frequency-Fires and Hesitation-Halt.

Hydro-the-High-Pressure

Grade 1-4 dilation
Renal Pelvis expansion

POWER: The Back-Flow-Hammer. Downstream block forces fluid into the Kidney-Fortress, crushing Filter-Gears.

LORE: Obstructive Uropathy. Intrarenal pressure exceeds Glomerular-Filtration-Force.

Stone-the-Stunner

CaOx (75%)
5mm = 50% passage
Non-contrast CT

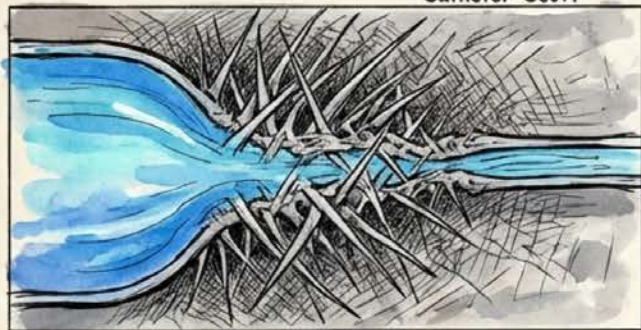

POWER: The Tunnel-Block. Wedges in the Ureter-Tube, triggering Peristalsis-Panic and Colic-Scream.

LORE: Solute saturation. Low Fluid-Tokens = crystals precipitate. Danger point: UVJ-Border-Crossing.

Stricture-the-Scar

RUG
History of trauma or
Catheter-Scuff

POWER: The Narrowing-Trap. A Fibro-Fiona scar-wall turns a Highway into a Thread-Thin-Path.

LORE: Inflammation-Incursion. Spongiofibrosis creates a permanent, non-elastic segment.

KayfaBOGGLE!

TCC-the-Surface-Crawler

Painless Hematuria
Smoking = 3x risk

POWER: The Red-Mist. Grows along Bladder-Wallpaper, causing Blood-Leak before digging deep.

LORE: The Field-Effect. Carcinogens touch every inch of the Basin-Wall.

RCC-the-Fortress-Breaker

Clear Cell (80%)
Triad: Hematuria, Pain, Mass

POWER: The VHL-Vandal. Builds own Blood-Pipe-Network to break into the Renal-Vein-River.

LORE: VHL-Blueprint-Glitch. Creates Erythropoietin-Sparks, raising RBC count.

Adeno-the-Silent-Miner

PSA > 4
Gleason (6-10)
Peripheral Zone

POWER: The Stealth-Grower. Starts in the Outer-Plains. Hides until hitting the Bone-Arena.

LORE: Androgen-dependent. Exploits Testosterone-Signal to expand and breach Capsule.

Wilms-the-Kidney-Wrestler

Pediatric
WT1 mutation
Smooth mass

POWER: The Youth-Invasion. Massive encapsulated tumor taking over the Kidney-Arena.

LORE: Blastema cell failure. Primitive warriors refuse to differentiate into mature filters.

BLÖDSINN!

Torsion-the-Twister

6-hour rescue window
Absent Cremasteric Reflex

POWER: The Blood-Choke. Twists Spermatic-Cord, cutting Arterial-Flow. Arena dies.

LORE: Bell-Clapper-Deformity. Lacks anchor to Scrotal-Wall, spinning and trapping supply lines.

Semin-the-Germ-Giant

15-35 age / hCG high
LDH = Tumor load

POWER: The Rapid-Replacement. Painless, heavy mass replaces normal tissue with solid Armor-Block.

LORE: Germ-cell riot. Highly Radiation-Sensitive—melts when hit by Roentgen-Rays.

Varico-the-Bag-of-Worms

Left side (90%)
Dilation > 2mm

POWER: The Heat-Trap. Vein-Valves fail, pooling blood. Raises Arena-Temp, sabotaging Sperm-Knights.

LORE: Nutcracker-Effect. Left-Renal-Vein squeezed, causing back-pressure in Scrotal-Veins.

Hydro-the-Water-Sac

Transillumination positive
Fluid In Tunica Vaginalis

POWER: The Fluid-Buffer. Scrotal-Fortress fills with clear fluid. Giant but Weightless-and-Soft.

LORE: Failure to close Abdominal-Gateway, letting Peritoneal-Water leak down.

Diagnosis?!

Cysti-the-Bladder-Burn

E. coli (80%)
Nitrites +
Leukocytes +

POWER: The Wall-Irritant. Bacteria colonize Bladder-Lining, causing Frequency-Fires.
LORE: Short Urethra-Tunnels in Female-Knights. Pili-Hooks resist wash-out.

Pyelo-the-Fortress-Siege

Fever + Plank Pain
WBC Casts
CVA Tenderness

POWER: The High-Invasion. Travels up Ureter-Tunnels to attack Kidney-Fortress, causing Systemic-Shock.
LORE: Ascending infection triggers Neutrophil-Riot, risking permanent Scar-Ruins.

Prosta-the-Deep-Ache

Boggy on DRE
Pelvic pain
High fever

POWER: The Glandular-Glow. Prostate-Gate becomes swollen and Angry-Red. Painful Fluid-Exit.
LORE: Bacterial-Sanctuary. Prostate-Armor blocks Antibiotic-Artillery; requires long treatment.

Fournier-the-Grit-Destroyer

Necrotizing Fasciitis
Crepitus
Surgical Emergency

POWER: The Flesh-Melt. Bacterial-Fire-Storm eats through Serotal-Armor in hours.
LORE: Polymicrobial sabotage. Toxin-Gas creates skin bubbles and kills Blood-Supply-Roads.

HUMBUG!

More sugar!

Less flow!

Urge-the-Impulse

Detrusor overactivity
Overactive Bladder (OAB)

POWER: The Premature-Squeeze. Bladder-Muscle spasms without warning before Sanitary-Zone.

LORE: Neuro-Misfire. Nerves shout EMPTY NOW even when Reservoir is mostly empty.

Overflow-the-Drip

High Post-Void Residual (PVR)
Bladder distension

POWER: The Reservoir-Burst. Overfilled with Static-Fluid, it simply Leaks-at-the-Edges. Obstructive or Atonic bladder.

LORE: Wall stretched too thin to execute Squeeze-to-Victory.

Stress-the-Leak

Pelvic floor weakness
Leaks with Cough/Sneeze

POWER: The Valve-Fail. Rising Abdominal-Pressure overwhelms failing Pelvic-Floor; Gate opens.

LORE: Loss of mechanical support for Urethra-Tunnel, often post-childbirth.

Neuro-the-Silent-Bladder

Spinal cord injury
Detrusor-Sphincter Dyssynergia

POWER: The Disconnect. Brain-Bunker and Bladder-Fortress stop communicating. Loss of Pontine-Micturition-Center signal. Squeeze and Gate fire simultaneously.

LORE: Center signal. Squeeze and Gate fire simultaneously.

What the
FLUFF?!

TURP-the-Tunnel-Clearer

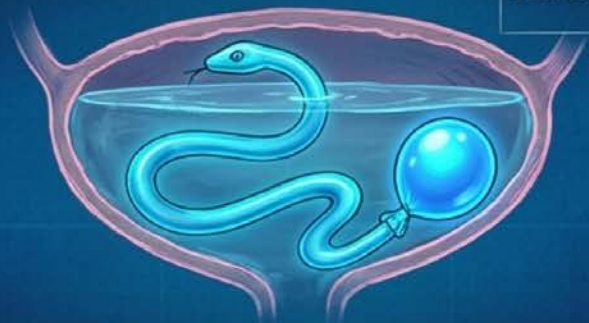

Transurethral Resection
Gold Standard

POWER: The Inner-Melt. A Loop-of-Fire carves away the Gatekeeper Gland from the inside out.
LORE: Re-opening Urethra-Highway by creating a Wide-Open-Funnel to restore flow.

Foley-the-Drain-Master

14-16 French
Balloon-Anchor
Sterile

POWER: The Bypass-Pipe. Flexible tube bypasses Obstruction-Outlaws to empty Reservoir.
LORE: Inflatable-Water-Balloon anchors it inside the bladder. Essential for Retention-Crises.

ESWL-the-Wave-Smasher

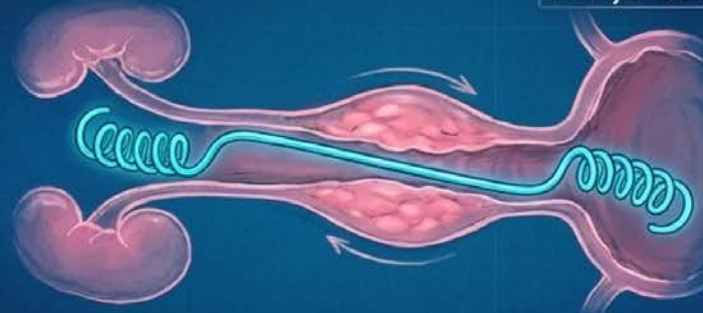

Shock Wave Lithotripsy
Focuses on stone

POWER: The Sonic-Hammer. High-energy Sound-Bursts travel through body to smash the Stone.
LORE: Acoustic cavitation. Shatters the crystalline lattice without a single Blade-Cut.

Stent-the-Bridge-Builder

Double-J Stent
Kidney to Bladder

POWER: The Tunnel-Prop. Keeps Ureter-Highway open, allowing flow even if Wall is swollen.
LORE: Curl-at-Both-Ends prevents stent from migrating up or down the pipe.

Pheo-the-Pressure-Spike

24h Metanephrins
HR & BP spikes
10% Tumor

POWER: The Adrenaline-Flood.
Adrenal-Basement tumor sprays
Combat-Hormones into blood.

LORE: Chromaffin cell riot.
Palpating the flank can trigger
the Hormone-Grenade.

Conn-the-Salt-Sucker

High Aldosterone
Low Renin
Low Potassium

POWER: The Fluid-Hoarder.
Tells Kidney-Filters to Keep-the-Salt
and Dump-the-Potassium.

LORE: Adrenal Cortex adenoma
bypasses feedback loops. An
independent Pressure-Engine.

Polycyst-the-Grape-Kidney

ADPKD
PKD1 & PKD2
Risk of Berry-Aneurysm

POWER: The Fortress-Expansion.
Kidney turns into a Cluster-of-Water-
Cilia-Sensors in tubes fail,
Balloons, destroying filters.

LORE: Genetic Source-Code-Glitch.
Cilia-Sensors in tubes fail,
causing Tubes-to-Balloon.

Nephro-the-Protein-Leak

Proteinuria > 3.5g
Low Albumin
High Chol

POWER: The Filter-Hole.
Kidney-Mesh tears, leaking
Albumin-Shields into urine.

LORE: Loss of Negative-Charge-
Barrier. Without Albumin-Magnets,
water leaks into Leg-Puddles.

Tamsu-the-Flow-Opener

Tamsulosin
Selective for
Alpha-1A

POWER: The Muscle-Melt. Relaxes Smooth-Muscle-Grip of Prostate-Gate for wide Tunnel-Exit.

LORE: Does not shrink the gland. Simply Relaxes-the-Clench to improve Stream-Speed.

Finast-the-Shrinker

Finasteride
6-month delay
PSA drops 50%

POWER: The Hormone-Starve. Cuts off DHT-Fuel for Gatekeeper-Gland. Wither-and-Shrink.

LORE: Blocks Testosterone to DHT conversion. Reduces Volume-of-the-Obstacle slowly.

Oxybu-the-Bladder-Calmer

Oxybutynin
M3-receptor antagonist

POWER: The Spasm-Mute. Calms the Hyper-Active-Muscle to stop Urge-the-Impulse.

LORE: Blocks Acetylcholine-Signal. High efficacy, but triggers side effect: The-Dry-Mouth.

Mirab-the-Beta-Booster

Mirabegron
Beta-3 Agonist

POWER: The Reservoir-Expander. Relaxes bladder during Filling-Phase to comfortably hold more.

LORE: Mimics Sympathetic-Relaxation. A clean Power-Move avoiding the Anticholinergic-Fog.

Call Doc
Frizzle!

Priap-the-Frozen-Flow

> 4 hours = Emergency / Ischemic

POWER: The Stagnant-Trap. Blood enters Erectile-Arena but cannot leave. Cells suffocate.

LORE: Compartment-Syndrome. If Trap isn't broken via aspiration, tissue turns to Scar.

Fragil-the-Fracture

Audible Snap / Eggplant deformity

POWER: The Wall-Burst. High-pressure armor rips; blood floods Scrotal-Plains.

LORE: Bending force on Erect-Pillar. A true Surgical-Repair-Emergency.

Paraphim-the-Constrictor

Foreskin trapped / Venous engorgement

POWER: The Ring-Choke. Retracted Skin-Collar becomes a Tourniquet, strangling the Head.

LORE: Mechanical trap. Lymphatic-Return is blocked, triggering a Vicious-Cycle of swelling.

KayfaBONGO!

Sepsis-the-Uro-Storm

Obstruction + Infection / Low BP

POWER: The Toxic-Overflow. Blocked/Infected Kidney pushes bacteria into blood under high pressure.

LORE: The most lethal Uro-Match. Drain-the-Fortress immediately to stop the Storm.

Glomerulo-the-Red-Riot

Hematuria (Cola)
RBC Casts / HTN

POWER: The Inflammatory-Clog. Immune-Army attacks Filter-Gears, leaving them Stuffed-Up.

LORE: Often follows Strep-Infection. Filter-Membrane damaged by Immune-Complex-Shrapnel.

Interstiti-the-Drug-Rash

Eosinophils in urine
Fever + Rash / AIN

POWER: The Allergic-Kidney. Spaces-Between-Tubes become a Battle-Zone of allergic inflammation.

LORE: Kidney-Fortress is an innocent bystander in a Drug-Hypersensitivity-Riot (NSAIDs).

Tubular-the-Melt

Muddy brown casts
Low G2 / ATN

POWER: The Engine-Failure. Tubes processing urine melt, shedding dead cells into Drain-Pipe.

LORE: Acute Tubular Necrosis. Most common cause of Sudden-Kidney-Halt in the ICU-Arena.

Stenosis-the-Pipe-Kink

Flank Bruit
Refractory HTN
/ High Renin

POWER: The Starvation-Signal. Inflow-Pipe narrowed. Kidney thinks Arena-is-Dry, screams for Pressure.

LORE: Renovascular HTN. Kidney is fine, but its Pressure-Sensor is fooled by the Kink.

HUMBUG!

VUR-the-Wrong-Way

VCUG / Recurrent
UTIs in children

POWER: The Gravity-Defier.
Weak bladder valve lets urine Splash-Illegal-Backflow carries Bacteria-Back-Up to kidney during voiding.

LORE: Vesicoureteral Reflux.
Illegal-Backflow carries Bacteria-Punks to Kidney-Fortress.

Hypospad-the-Misfired-Exit

Urethral opening
on ventral surface

POWER: The Short-Tunnel.
Exit-Pipe falls short, opening along the Bottom-Shaft instead of tip.

LORE: Failure of the urogenital folds to Zip-up completely during the Creation-Phase.

PUV-the-Exit-Wall

Male only / Keyhole-sign
Bilateral Hydro

POWER: The Birth-Block.
Skin-Flap in tunnel blocks the exit, causing Total-System-Backup before birth.

LORE: Posterior Urethral Valves.
Bladder-Warrior hypertrophies trying to push past.

Stay fluffy!

Cryptorch-the-Hidden-Knight

Empty scrotum
Risk of Seminoma

POWER: The Womb-Stayer.
Testis fails to descend, staying in Abdominal-Heat-Zone where it withers.

LORE: Requires Orchiopexy-Fix (Surgical-Anchor) before permanent damage to Sperm-Knights.

BCG-the-Immune-Fire

Intravesical
Live attenuated TB

POWER: The Controlled-Riot.
Pour Tamed-Bacteria into bladder
to trigger a Massive-Immune-Fire.

LORE: Macro-Maggie cleaners
fight the BCG and destroy the
TCC-Crawler by accident.

Robot-the-Precise

Da Vinci System
Nerve-sparing

POWER: The Nerve-Spare.
Mechanical-Surgeon uses tiny holes to
remove Adeno-Miner while saving Nerves.

LORE: 3D-Vision and precision
tools allow work in the Deep-
remove Adeno-Miner while saving Nerves. Dark-Basin with perfection.

Docet-the-Taxane-Hammer

Castration-Resistant
Taxane Chemo

POWER: The Mitosis-Stop.
Freezes the Cell-Skeleton so the
Miner cannot divide.

LORE: Microtubule stabilizer.
Locks cancer cells in a permanent
Ice-Stasis until they die.

Radium-the-Bone-Seeker

Alpha-emitter
Bone metastases

POWER: The Internal-Sniper.
Radioactive-Calcium-Mimic goes
straight to Bone-Scars, blasting tumor.

LORE: Targeted Alpha Therapy.
High energy but Short-Range,
sparing nearby Marrow-Knights.

KayfaBIZARRO!

Scope-the-Eye-in-the-Pipe

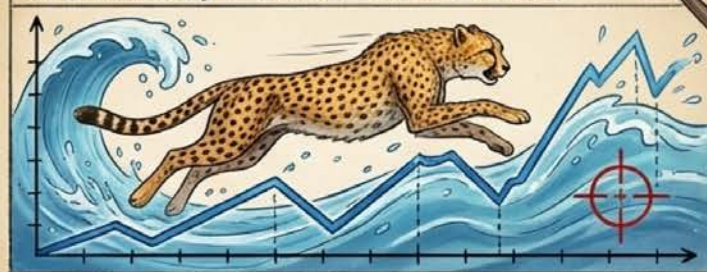

Cystoscopy / Direct visualization

POWER: The Direct-Witness. Sends a Camera-Snake to see TCC-Crawler or Stone-Stunner face-to-face.
LORE: Gold Standard for bladder secrets. Allows for a Biopsy-Bite to confirm the name.

Flow-the-Speed-Gage

Uroflowmetry / Qmax / Voided volume

POWER: The Stream-Judge. Weak-and-Dribbling stream means BPH-the-Gatekeeper is winning.
LORE: Functional plumbing test. Maps Squeeze-Power versus the Resistance-Wall.

PVR-the-Residual-Scanner

Post-Void Residual / Ultrasound

POWER: The Left-Behind-Checker. Scans Reservoir after voiding. If Bucket-is-Half-Full, plumbing fails.
LORE: Volume > 100ml is a Red-Flag-Signal for Overflow-the-Drip or chronic obstruction.

Creati-the-Filter-Friend

Creatinine Normal 0.7-1.3 / GFR

POWER: The Waste-Counter. As Kidney-Filters fail, Trash-Tokens build up in the blood.
LORE: A lagging indicator. If Creati is high, the Kidney-Fortress has been under siege for some time.

Diagnosis?!

The Urology Attending (Doc FrizzleBob)

Board Certified /
Master of the Vault

POWER: The Plumbing-Orchestrator.
LORE: Is the pressure rising? Is the stone moving?
Check the PSA, check the flow, and never forget the
digital exam! Stay fluffy!

FrizzleBob's Synthesis Quest 2: The Blocked Gate

LORE: Older wrestler
can't pee. Reservoir is
massive/painful.
History of Weak-Stream.

QUEST: Apply the
Bypass-Pipe (Foley-the-
Catheter) and name the
Gatekeeper-Antagonist
(BPH-the-Gatekeeper).

FrizzleBob's Synthesis Quest 1: The Screaming Stone

LORE: Sudden 10/10 flank
pain, vomiting, unable to
sit still. UA-Scanner
shows Red-Blood-Cells.
Red-Blood-Cells.

QUEST: Identify the Tunnel-Blocker
(Stone-the-Stunner) and decide if he
needs the Wave-Smasher (ESWL).

MedKayfabe!

FrizzleBob's Synthesis Quest 3: The Newborn's Keyhole

LORE: Newborn-Knight has not
peed. Ultrasound shows
Keyhole-Sign and bilateral
Hydro-the-High-Pressure.

QUEST: Identify the Exit-Wall
(PUV-the-Exit-Wall) and the
immediate drainage move.
