

DJ FrizzleBob's

KAYFABIZARRO KOMIK KARD KUTS

For Political PSY-OP POP & Sonic LOBBY-WRESTLING

(Analog Autotune Remix)

The only game where you sell your
soul to buy a plastic one.

WARNING: This deck contains
traces of broken dreams,
predatory contracts, and
auto-tuned lies.
PLAY AT YOUR OWN RISK.
Do not feed the executives.

PHASE I: THE BAIT (The Contract Phase)

Sign here, kid. It's just standard boilerplate for "eternal damnation".

THE 360 DEAL

[R] [A] [F]

Power:

TAKE half of target player's resource tokens. You own their merch, touring, and soul.

Lore:

They say it's a partnership. A tick also calls the dog a partner.

BLÖDSINN!

THE NAIVE PRODIGY

[R] [A] [F]

Power:

GAIN +2 Hype, but cannot read card text for the next 3 turns.

Lore:

I coulda been a contender! Instead, I'm a tax write-off.

THE SHARK MANAGER

[R] [A] [F]

FORCE a player to re-roll. If they fail, you keep their dice.

Lore:

Don't worry about the fine print, kid. It's just standard boilerplate for "indentured servitude".

THE FINE PRINT

[R] [A] [F]

NEGATE any 'Success' roll. The label recoups expenses first.

Lore:

Hollywood Accounting: Where a billion dollars in profit is technically a loss.

PHASE I: THE FALSE START

Fake it until you make it, then keep faking it forever.

The Payola Scheme

SPEND 5 🟡 Coin to force your song to the top of the playlist.

Lore:
Screw the rules, I have money! It's not bribery if we call it 'promotional support'.

The Nepo-Baby

START the game on Level 3. Talent is optional; lineage is mandatory.

Lore:
An industry plant with roots in the boardroom. Born on third base, thinks they hit a triple.

The Viral Hoax

COPY the last played effect. Follow the leader into the abyss.

Lore:
Manufactured buzz for a disposable generation. Trending today, deleted tomorrow.

The Ghostwriter

We love your sound. Now change everything about it.

THE SUIT (The Meddler)

THE FOCUS GROUP

Power:
DISCARD your hand and draw new cards until the demographic approves.

Lore:
We pivoted to appeal to males 18-34, so your ballad is now a truck commercial.

R A F

Lore:
The Scorpion Algorithm: Optimizing art until it is perfectly flat and universally tolerated.

THE GENRE SWAP

R A F

PHASE II: STUDIO HELLSCAPE

We'll fix it in post. And by 'it', we mean 'you'.

The Producer from Hell

DESTROY a card to "improve" it. It comes back with lower stats.

My vision is the only vision. You're just the meat holding the instrument.

The Autotune Patch

FIX a failed roll. The result is successful but artificial.

Talent is a bug. Pitch correction is the feature.

The Session Musician

SWAP this card in to take the damage for another player.

The nameless pro who actually played on your favorite album. No royalties, flat fee.

Development Hell

SKIP your turn. Repeat indefinitely until contract expires.

The label isn't saying "no." They're just saying "not in this lifetime".

Stay fluffy!
