# MedKayfab Synthesis Scenarios: The Grand Rumble

*When the decks collide, the real medicine begins. Stay fluffy!*

**Call  
Doc Frizzle!**

## The Rusty Pump Transition

Acute-on-Chronic Heart Failure

STAT block:  
BP 170/90,  
HR 110,  
Sat 88%

POWER: Heart-Fail-the-Flood. The pump weakens, the fluid rises.  
LORE: Find the Temporal-Phase. Listen for bibasilar crackles and +4cm JVD.

## The Electrical Quiver

Atrial Fibrillation

STAT block:  
HR 160  
(Irregularly-Irregular)

POWER: Rhythm-Rebel Chaos. Narrow complex, zero P-waves.  
LORE: Clot-Prevention is your priority. The chaotic quiver breeds emboli.

## The Shredded Pipe

Aortic Dissection

STAT block:  
BP 190/110 (R)  
vs 140/90 (L)

POWER: Lethal-Beggie's Pressure-Slam. Immediate heart-rate and pressure drop required.  
LORE: Sudden tearing pain + widened mediastinum. Asymmetric pulses are the tell.

## The Midnight Drown

Acute Mitral Regurgitation

STAT block:  
Loud Holosystolic  
Murmur

POWER: Back-Flow-Hammer. Rheumatic history shatters the valve door.  
LORE: Pink-frothy-sputum means the lungs are drowning from the inside.

+  
What the  
FLUFF?!

## The 4.5-Hour Deadline

Ischemic Stroke Penumbra

STAT:  
90 Mins Ago

POWER: Golden-Hour-Gabe. No-Hemorrhage-Red-Mist means the window is open.

LORE: Rescue Penumbra-the-Pleading before the 4.5-hour clock melts down.

## The Lightning-Head-Bolt

Subarachnoid Hemorrhage

Worst Headache,  
BP 185/105

POWER: Vessel-Burst Explosion. The red mist floods the bunkers.

LORE: The ultimate thunderclap. Crimp the pipe and control the pressure instantly.

## The Crescent-Moon-Crash

Subdural Hematoma

STAT:  
82yo, Warfarin

POWER: Slow-Bleeder Gravity. Venous tears creep up on the old guard.

LORE: Don't fall for the Anchor-the-Heavy bias; confusion after a fall is the Crescent until proven otherwise.

**KayfaBINGO!**

## The Spinal-Stall

Neurogenic Shock

BP 85/50,  
Warm/Dry

POWER: Signal-Disconnect. The wires are cut, the tone is lost.

LORE: Warm and dry hypotension. This is not hemorrhagic shock; it's a severed power grid.

## The Acidosis-Abyss

DKA

STAT block:  
Sugar 600  
pH 7.0

**POWER:**  
Keto-the-Acid-Burn.  
The missing Insu-Key  
burns fat into acid.

**LORE:**  
Kussmaul-Breathing  
and fruity acetone  
breath means the body  
is venting the abyss.

## The Potassium-Peaked-Mountain

Hyperkalemia

STAT block:  
K<sup>+</sup> 7.8

**POWER:**  
Spark-Plug-Exile.  
The wide QRS canyon  
signals impending doom.

**LORE:**  
Calcium is your  
immediate Heart-Shield  
against the Killer K.

## The Salt-Wasting-Crisis

Congenital Adrenal  
Hyperplasia

STAT block:  
Na<sup>+</sup> 118,  
K<sup>+</sup> 8.0

**POWER:**  
Hormone-Shortcut.  
The factory fails to  
make the mineral-glue.

**LORE:**  
Ambiguous genitalia plus  
an electrolyte emergency  
equals the Salt-Waster.

## The Calcium-Stone-Moan

Hyperparathyroidism

STAT block:  
Calcium 13.0

**POWER:**  
Glandular-Overlord  
Pete pulls calcium  
from the bone-vaults.

**LORE:**  
Flank pain, constipation,  
and a neck tumor. The  
stone stuns the system.

Diagnosis?!

## The Midline-Rigidity

### Perforated Peptic Ulcer

**POWER:** Wall-Breach. The acid burns through, the dome fills with ghosts.

**LORE:** A board-like abdomen means call the Blade-Brigade immediately.

**STAT block:**  
BP 95/60,  
Free Air

## The Currant-Jelly-Telescope

### Intussusception

**POWER:** Slide-In-Move. The gut swallows the gut, causing screaming fits.

**LORE:** Sausage-shaped mass + red jelly. Deploy the Air-Enema-Fix.

**STAT block:**  
9mo, Red-  
Jelly Stool

## The Yellow-Pipe-Block

### Ascending Cholangitis

**POWER:** Infection-Incursion. The blocked highway breeds bile-sepsis.

**LORE:** Charcot's triad demands you unblock the Common-Bile-Highway immediately.

**STAT block:**  
Fever 39C,  
Jaundice

## The Projectile-Olive

### Pyloric Stenosis

**POWER:** Exit-Blocker. The projector causes profound alkalosis.

**LORE:** Feel for the olive-mass. Reset the fluids before fixing the muscle.

**STAT block:**  
3-week-old,  
pH 7.55

**HUMBUG!**

## The Barking-Steeple

Croup

STAT block:  
2yo, Barking  
Cough

POWER:  
Subglottic-Squeeze.  
The steeple chokes  
the flow.  
LORE:  
Stridor at night.  
Deploy Steroid-Stella  
to shrink the steeple.

## The Rice-Water-Flood

Cholera

STAT block:  
Skin-Turgor-  
Tent

POWER:  
Pump-Antagonist.  
Choler-the-Pump  
reverses the flow.  
LORE:  
The fluid loss is lethal.  
ORS Refiller-Priority  
is your only move.

## The Hemorrhagic-Melt

Ebola

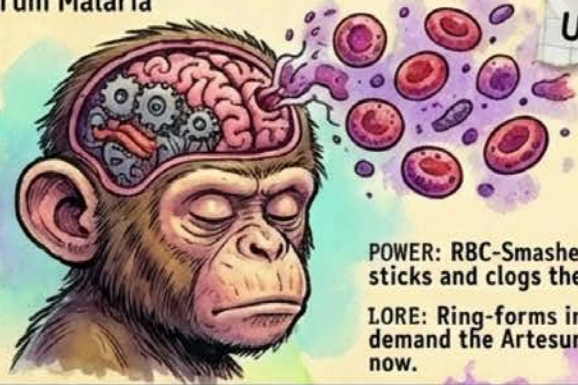

STAT block:  
Bushmeat  
Contact

POWER: Capillary-Shredder.  
The horror liquefies the barriers.  
LORE: Fever and bleeding from IV  
sites after the red-zone means  
immediate Lockdown.

Diagnosis?!

## The Cerebral-Malaria-Stall

Falciparum Malaria

STAT block:  
8yo,  
Unconscious

POWER: RBC-Smasher. Fanci-the-Killer  
sticks and clogs the brain pipes.  
LORE: Ring-forms in the smear  
demand the Artesunate-Hammer  
now.

KayfaBONGO!

## The Cherry-Red-Suffocator

Carbon Monoxide

STAT block:  
House Fire,  
SpO2 100%

POWER: Silent-Antagonist. Carboxy-the-Carbon-Copy is the ultimate Liar-Stat.  
LORE: The pulse-ox lies. Flood the system with real oxygen instantly.

## The Yellow-Vision-Dig

Digoxin Toxicity

STAT block:  
HR 40,  
Yellow-Vision

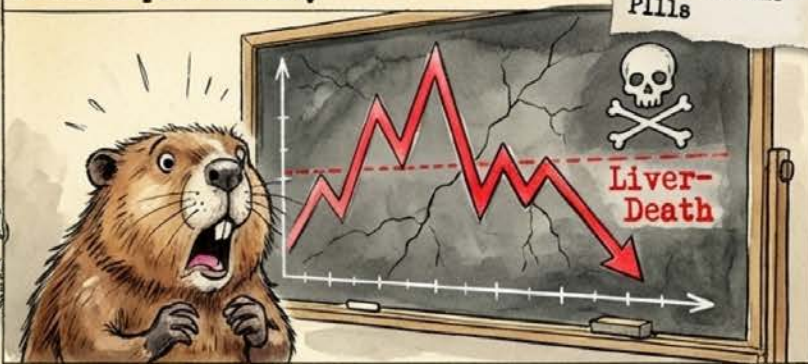

POWER: Narrow-Window-Antagonist. Digo-the-Pox locks the heart-gears.  
LORE: Low potassium makes it worse. Deploy the Antibody-Capture move.

## The Liver-Destiny-Nomogram

Acetaminophen Toxicity

STAT block:  
30 Acetamino-  
Pills

POWER: Liver-Threat. The toxic metabolite overwhelms the vault.  
LORE: Plot the 4-hour level. If it crosses the line, launch the NAC rescue.

## The Garlic-Breath-Sabotage

Arsenic Poisoning

STAT block:  
Garlic-Breath,  
White Mees-Lines

POWER: Metabolic-Mimic. The saboteur uncouples the cellular battery.  
LORE: Metallic taste and garlic breath mean you need the Chelator-Cage

MedKayfabe!

## The White-Reflex-Shadow

Retinoblastoma

STAT:  
2yo, Leukocoria

POWER:  
Eye-Shadow-Tumor.  
The RB1-Blueprint-Glitch  
removes the brakes.

LORE:  
A white glow in a  
photo means the red  
reflex is dead.  
Check the genome.

## The Flank-Fist-No-Touch

Wilms Tumor

STAT:  
3yo, No-Midline-Cross

POWER:  
Kidney-Wrestler.  
It grows large but  
respects the borders.

LORE:  
It does NOT cross  
the midline. Do not  
touch it, or the  
capsule breaks.

## The Midnight-Crosser

Neuroblastoma

STAT:  
Opsoclonus,  
Crosses Midline

POWER: Jagged-  
Adrenal-Monster.  
It defies the  
anatomical midline.

LORE: Dancing eyes  
and calcifications.  
This monster crosses  
the line.

## The Marrow-Invasion-Punks

ALL

STAT:  
30% Lymphoblasts

POWER: Crowd-Out  
Mechanism. The  
blast-punks halt all  
normal production.

LORE: TDT positive  
bone pain means the  
marrow has been  
invaded.

## The Cola-Colored-Riot

Post-Strep Glomerulonephritis

STAT:  
Cola-Urine,  
BP 145/95

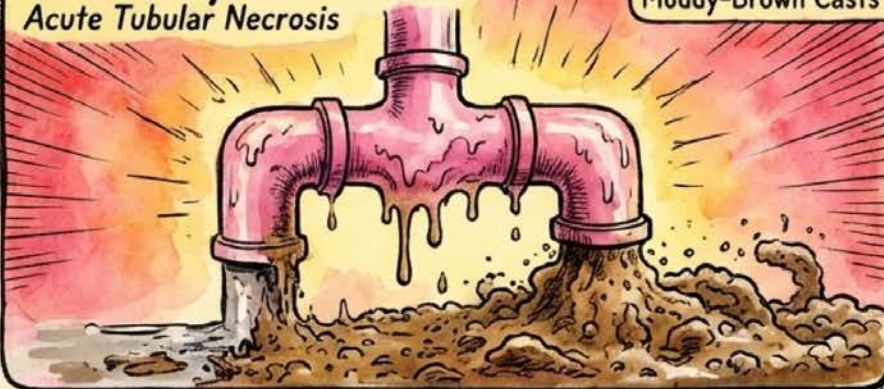

POWER: Filter-Inflammation. The post-strep immune complexes start a riot.  
LORE: Puffy eyes, high BP, and RBC casts. The Nephritic-Pattern is active.

## The Muddy-Brown-Melt

Acute Tubular Necrosis

STAT: Sepsis,  
Muddy-Brown Casts

POWER: Tubular-Melt. The ischemic-halt kills the lining cells.  
LORE: When the pressure drops, the tubes die and slough off as muddy brown casts.

KayfaBIZARRO!

## The Protein-Leak-Shield

Minimal Change Disease

STAT:  
4+ Protein,  
Low Albumin

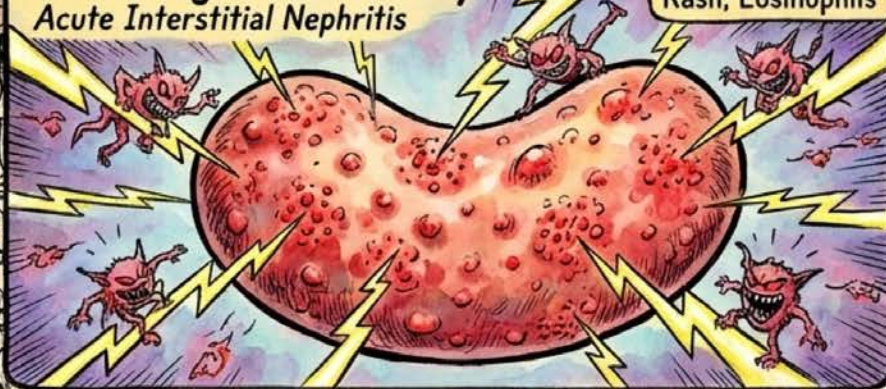

POWER: Filter-Hole-Syndrome. The electrical charge barrier is wiped out.  
LORE: Massive swelling + 4+ protein = Nephrotic-Pattern. Replace the shield.

## The Drug-Rash-Kidney

Acute Interstitial Nephritis

STAT: Penicillin,  
Rash, Eosinophils

POWER: Allergic-Kidney. The drug-trigger sparks an internal allergy war.  
LORE: Fever, rash, and eosinophils in the urine after new meds. Stop

## The High-Pressure-Seizure Eclampsia

**STAT:**  
BP 165/110,  
Seizing

**POWER:** Eclampsia-Storm. The ultimate high-pressure brain overload.

**LORE:** When the seizure hits, Mag-the-Magnet is your only rescue move.

## The Ectopic-Tube-Burst Ectopic Pregnancy

**STAT:**  
BP 80/40,  
Empty Uterus

**POWER:** Gate-Blocker. Placenta-Phil covers the cervical exit entirely.  
**LORE:** Painless bright red bleeding.  
**Rule #1:** NO vaginal exams ever.

## The Painless-Placenta-Bleed Placenta Previa

**STAT:**  
Bright-Red  
Bleed, NO PAIN

**POWER:** Wrong-Arena-Invasion. The tube cannot handle the expansion.

**LORE:** Sudden RLQ pain and shock with an empty uterus. The tube is rupturing.

## The Painful-Abruption-Rip Placental Abruption

**STAT:**  
Hard Uterus,  
Constant Pain

**POWER:** Premature-Rip. The life-support forcibly detaches early.

**LORE:** Dark blood, rock-hard uterus, and relentless pain. Hit the Emergency-Exit.

## The Iron-Store-Famine

Iron Deficiency Anemia

Hb 8.0,  
MCV 70

**POWER:** Micro-Mitch Famine. The ferritin-vault is completely empty.

**LORE:** Pale skin, spoon-nails, low MCV. The factory has no metal to build cells.

## The Spleen-Crunch-Crisis

Sickle Cell Anemia

STAT:  
Sickle-Shaped,  
Hb 6.0

**POWER:** Vaso-Occlusive-Crisis. The mutant hemoglobin polymerizes under stress.

**LORE:** Sudden severe bone pain. Oxygen and hydration are your immediate moves.

## The B12-Nerve-Melt

Vitamin B12 Deficiency

MCV 115,  
Neuropathy

**POWER:** Cobalt-Famine. Macro-Max cells form, while the nerve-insulation dies.

**LORE:** Big cells + neuropathy. Folate won't fix the melting nerves.

## The DIC-Disaster-Riot

Disseminated Intravascular Coagulation

STAT:  
Sepsis,  
Zero Platelets

**POWER:** Coagulation-Chaos. The system clots until it has nothing left but bleeding.

**LORE:** Elevated PT/aPTT, empty fibrinogen, and schistocyte-shards. The paradox is real.

## The Anchovy-Paste-Abscess

Amoebic Liver Abscess

STAT:  
Anchovy-Paste  
Aspirate

POWER: Tissue-Melter. The invader liquefies the liver architecture.  
LORE: Travel history + fever + brown paste = deploy Metro-the-Melt.

## The Pancreas-Autodigestion

Acute Pancreatitis

STAT:  
Lipase 10x,  
Cullen-Sign

POWER: Factory-Fire. The digestive enzymes activate inside the factory.  
LORE: Boring pain to the back with high Lipase. NPO-Rest is the only way to cool the fire.

## The Coffee-Ground-Hemorrhage

Upper GI Bleed / Ulcer

STAT:  
Coffee-Grounds,  
Melena

POWER: Acid-Erosion. The protective layer fails, exposing the blood pipes.  
LORE: Black stool and coffee-ground vomit means the acid has digested the blood.  
PPI-shutdown now.

## The Apple-Core-Block

Colorectal Cancer

STAT:  
Apple-Core Sign,  
Thin Stools

POWER: Malignant-Stenosis. The slow-growing ring chokes the exit.  
LORE: Weight loss and pencil-thin stools. The obstruction risk is critical

# The Serotonin-Storm

Serotonin Syndrome

**POWER:** Signal-Overload.  
Too much serotonin  
cooks the brain and  
jerks the muscles.

**LORE:** Fever, hyper-  
reflexia, and clonus.  
Deploy Cypro-  
the-Antidote to  
block the receptors.

**STAT**  
SSRI,  
Clonus, 40C

# The Lead-Pipe-Rigidity

Neuroleptic Malignant Syndrome

**POWER:** Dopamine-Lockdown.  
The sudden dopamine  
block creates a  
rigid inferno.

**LORE:** Fever 41C +  
lead-pipe rigidity.

Use Dantrolene-Relax  
to unfreeze the iron.

**STAT**  
Haloperidol,  
Lead-pipe

# The Wernicke-Wobble

Wernicke Encephalopathy

**POWER:** Energy-Deficit.  
Thiamine-B1-Famine kills  
the brain's energy  
production.

**LORE:** Confusion, ataxia,  
and eye paralysis.  
Jumpstart the battery  
with B1 before the lights  
go out.

**STAT**  
Ataxia,  
B1-Famine

# The Lithium-Shakes

Lithium Toxicity

**POWER:** Salt-Nimic-Toxicity.  
Lithium pretends to be  
salt and wrecks the  
filters.

**LORE:** Coarse tremors and  
GI upset. Fluid-Flush  
is required when the  
salt drops.

**STAT**  
Lithium 2.5,  
Low Na+

## The Magnesium-Mute

Magnesium Toxicity

**POWER:** The Signal-Block.  
Mag-the-Magnet has muted  
all nerve-and-muscle  
communication.

**LORE:** Reflexes disappear  
before breathing stops.  
Calcium-Gluconate  
is the antidote.

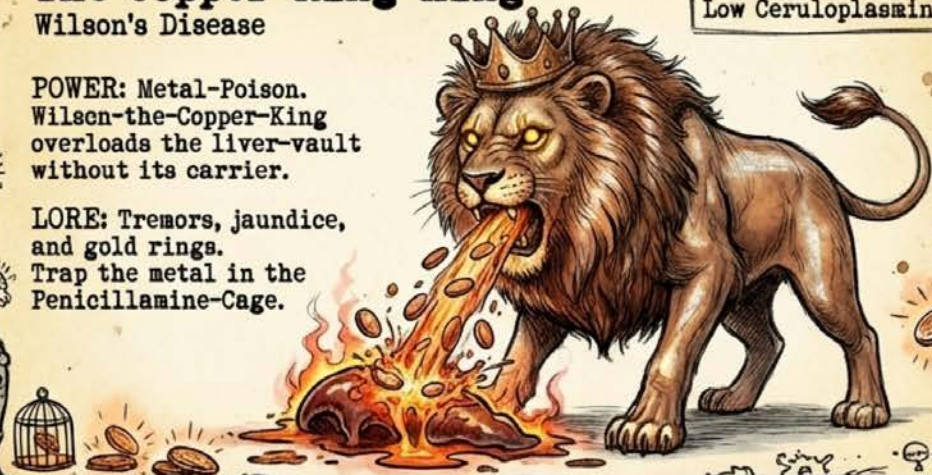

**STAT:**  
No Reflexes, RR 8

## The Copper-Ring-King

Wilson's Disease

**POWER:** Metal-Poison.  
Wilson-the-Copper-King  
overloads the liver-vault  
without its carrier.

**LORE:** Tremors, jaundice,  
and gold rings.  
Trap the metal in the  
Penicillamine-Cage.

**STAT:**  
Low Ceruloplasmin

## The Lead-Line-Stipple

Lead Poisoning

**POWER:** Heme-Hacker.  
The heavy metal destroys  
brain development and  
hemoglobin assembly.

**LORE:** Old houses, belly  
pain, and bone lines.  
The EDTA-Chelator  
must be deployed.

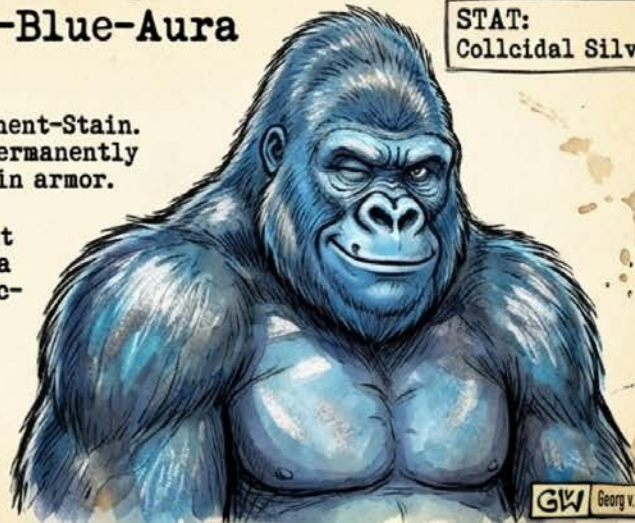

**STAT:**  
Basophilic-Stippling

## The Silver-Blue-Aura

Argyria

**POWER:** The Permanent-Stain.  
Argentos-Silver permanently  
deposits in the skin armor.

**LORE:** Harmless but  
irreversible. It's a  
permanent Cosmetic-  
Verdict.

**STAT:**  
Colloidal Silver

## Doc FrizzleBob Synthesis

Master of the Rumble

**POWER:** The Diagnostic Orchestrator. See the overlaps, beat the clock.

**LORE:** The patient is a story written across five decks. Solve the match before the final bell! Stay fluffy!

STAT  
Cross-Deck  
Expert

## Final Quest 1: The Crashing Heart

Synthesis Scenario

**POWER:** Lethal Combo. Renal-Failure traps Hyper-K-the-Killer, stopping the flooded heart.

**LORE:** Push the Calcium-Shield before the spiked T-waves flatline the pump.

STAT  
BNP 2000,  
Krea 3.5, HR 30

## Final Quest 2: The Blocked Fever

Synthesis Scenario

**POWER:** Uro-Storm. The blocked gate breeds rapid sepsis.

**LORE:** Foley-Catheter Drainage-Priority. You can't fight the fire until you open the drain.

STAT  
BPH, 40C,  
BP 80/40

## Final Quest 3: The Pregnant Seizure

Synthesis Scenario

**POWER:** Treatment-Trap. The Eclampsia cure becomes a Magnesium suffocation trap.

**LORE:** No reflexes means the dose was too high. Antidote-Move: Calcium-Gluconate NOW.

STAT  
28-weeks,  
No Reflexes

Stay fluffy! The Rumble is yours!
