05. Beta-hCG-Benny The Signalman

STAT: Doubles every 48 hours
Synecytiotrophoblasts.
POWER: The Rescue-Mission.
LOR: First sign of life.
Stalling numbers mean
Outlaw or Melt.

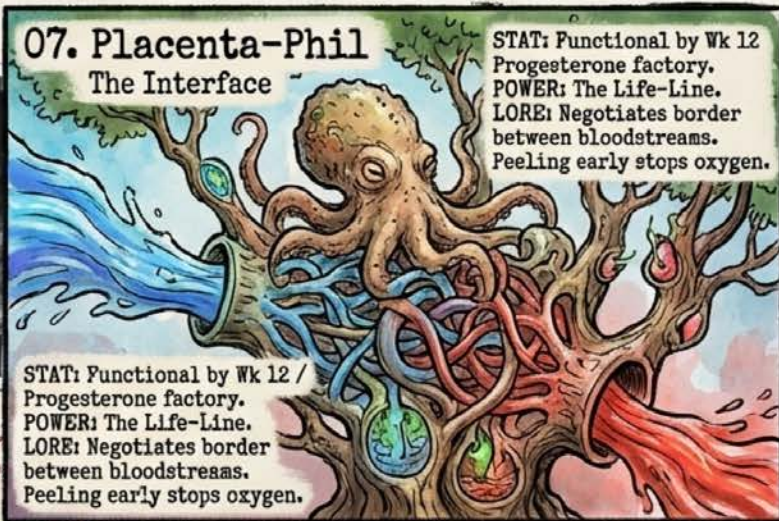

06. Ectopic-Eddie The Outlaw

STAT: 96% in Fallopian Tube
hCG > 1500 + empty uterus.
POWER: The Tube-Tearer.
LOR: Surgical emergency.
Rupture floods belly with hemorrhage.

07. Placenta-Phil The Interface

STAT: Functional by Wk 12
Progesterone factory.
POWER: The Life-Line.
LOR: Negotiates border
between bloodstreams.
Peeling early stops oxygen.

STAT: Functional by Wk 12 /
Progesterone factory.
POWER: The Life-Line.
LOR: Negotiates border
between bloodstreams.
Peeling early stops oxygen.

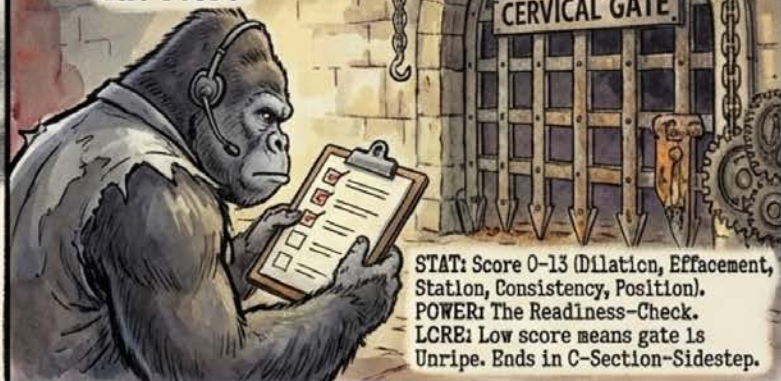

08. Morning-Mandy Hyperemesis

STAT: Weight loss > 5% /
Ketonuria / Dehydration.
POWER: The Vomit-Vortex.
LOR: Driven by high Benny-hCG.
Needs Fluid-Floods and
B6-Shields.

09. Bishop-the-Bouncer

The Score

STAT: Score 0-13 (Dilation, Effacement, Station, Consistency, Position).
POWER: The Readiness-Check.
LORE: Low score means gate is Unripe. Ends in C-Section-Sidestep.

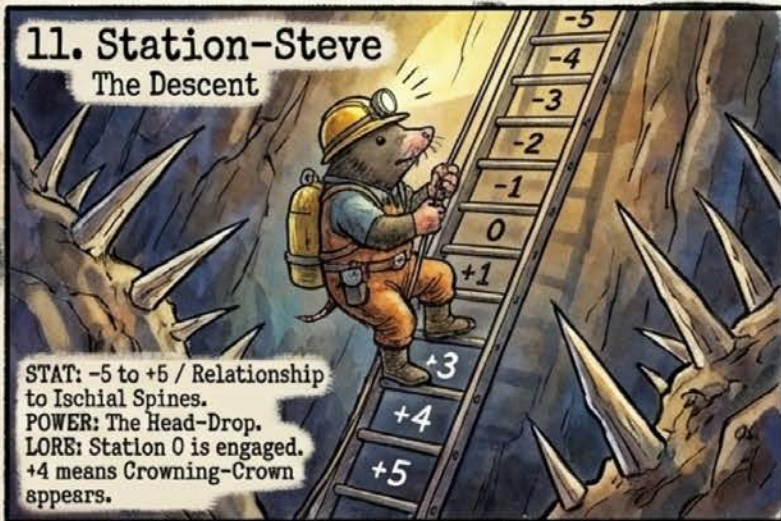

Call Doc Frizzle!

Checking the IDs of passing red blood cells.

11. Station-Steve

The Descent

STAT: -5 to +5 / Relationship to Ischial Spines.
POWER: The Head-Drop.
LORE: Station 0 is engaged. +4 means Crowning-Crown appears.

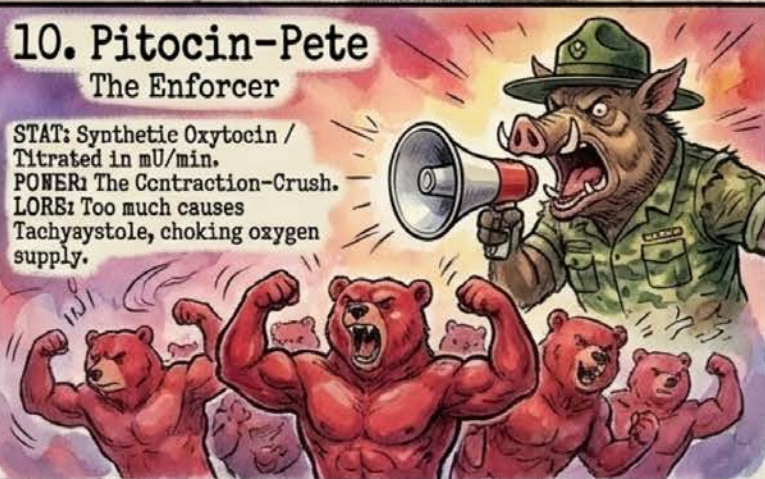

Call Doc Frizzle!

10. Pitocin-Pete

The Enforcer

STAT: Synthetic Oxytocin / Titrated in mU/min.
POWER: The Contraction-Crush.
LORE: Too much causes Tachyastole, choking oxygen supply.

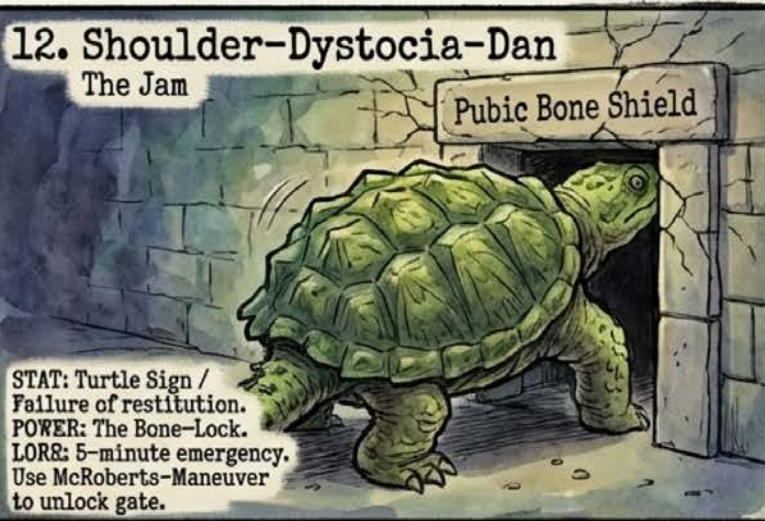

Call Doc Frizzle!

Checking the IDs of passing red blood cells.

12. Shoulder-Dystocia-Dan

The Jam

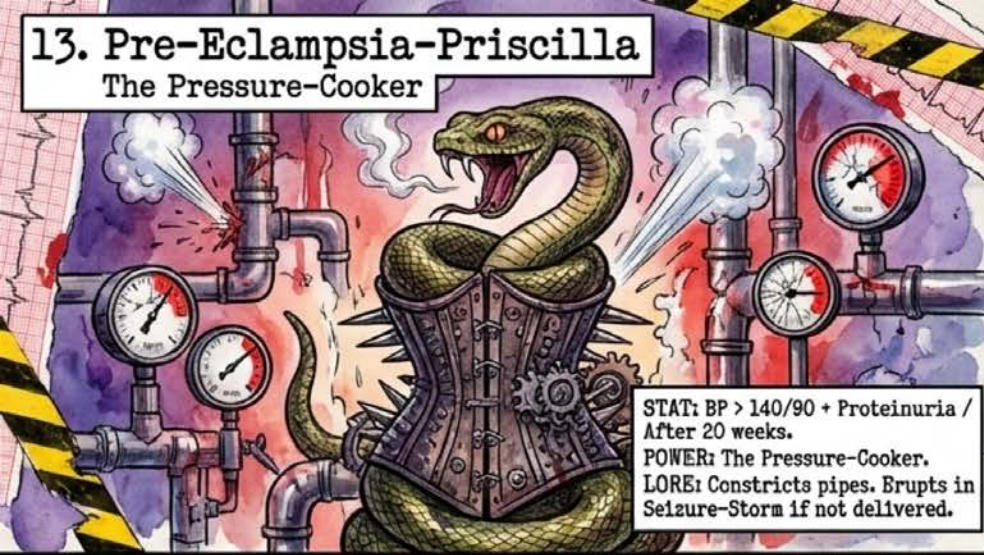

STAT: Turtle Sign / Failure of restitution.
POWER: The Bone-Lock.
LORE: 5-minute emergency. Use McRoberts-Maneuver to unlock gate.

Call Doc Frizzle!

13. Pre-Eclampsia-Priscilla

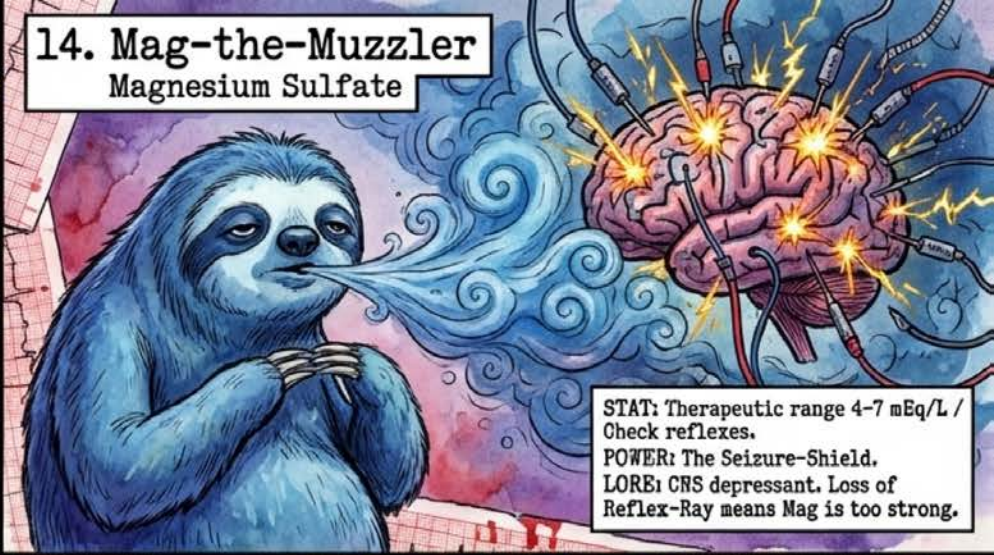

The Pressure-Cooker

STAT: BP > 140/90 + Proteinuria / After 20 weeks.
POWER: The Pressure-Cooker.
LORE: Constricts pipes. Bursts in Seizure-Storm if not delivered.

14. Mag-the-Muzzler

Magnesium Sulfate

STAT: Therapeutic range 4-7 mEq/L / Check reflexes.
POWER: The Seizure-Shield.
LORE: CNS depressant. Loss of Reflex-Ray means Mag is too strong.

15. Abruptio-Abby

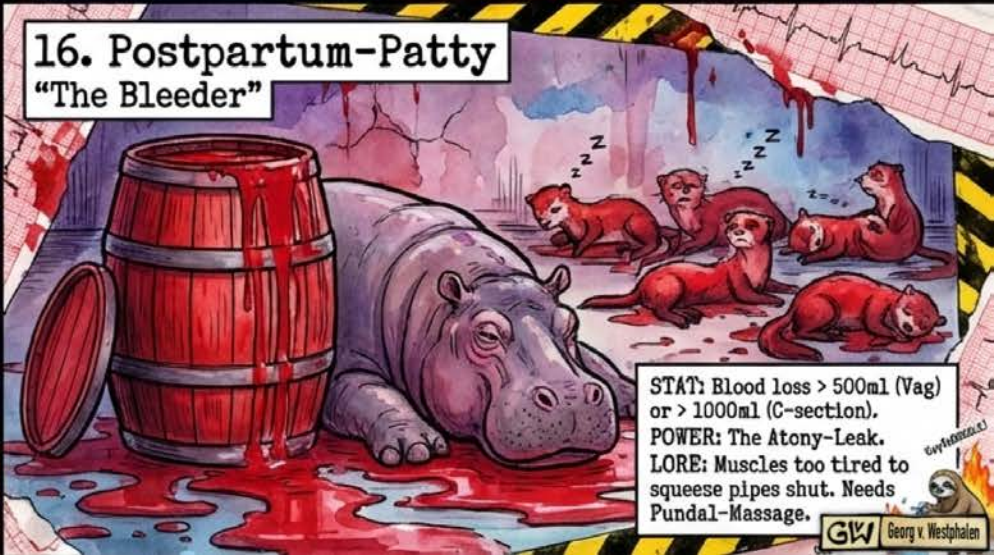

"The Tear"

STAT: Painful bleeding / Rigid uterus / Fetal distress.
POWER: The Sudden-Sever.
LORE: Oxygen-link broken. Race to OR to save the Fetal-Fighter.

16. Postpartum-Patty

"The Bleeder"

STAT: Blood loss > 500ml (Vag) or > 1000ml (C-section).
POWER: The Atony-Leak.
LORE: Muscles too tired to squeeze pipes shut. Needs Pundal-Massage.

17. Endo-Enid

Endometriosis

STAT: Cyclic pelvic pain / Dysmenorrhea / Chocolate Cysts.
POWER: The Invasive-Carpet.
LORE: Escaped tissue responds to Stella-Estrogen, bleeding and scarring.

19. Fibroid-Fiona

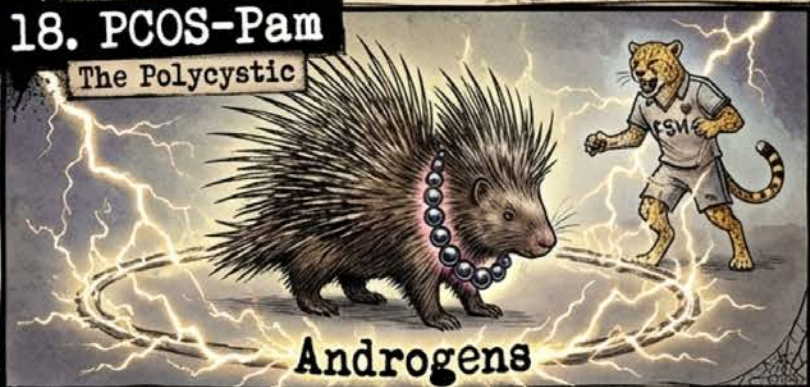

Leiomyoma

STAT: Intramural vs. Submucosal vs. Subserosal.
POWER: The Heavy-Hitter.
LORE: The Bulky-Uterus queen. Estrogen sensitive. Makes menses heavy.

18. PCOS-Pam

The Polycystic

STAT: Rotterdam Criteria (Anovulation, High Androgens, Cysts).
POWER: The Cycle-Stall.
LORE: Insulin resistance creates hostile spark-ring. Stops ovulation.

20. Cervical-Celia

The HPV Victim

STAT: HPV 16 & 18 / Pap Smear / Transformation Zone.
POWER: The Slow-Invaider.
LORE: Hijacks cell P53-brakes. Caught early by the Pap-Brush.

21. Candida-Candy

The Yeast

STAT: Cottage cheese discharge / pH < 4.5 / Pseudohyphae.
POWER: The Itch-Bomb.
LORE: Opportunist. Takes over when antibiotics kill the Lacto-Garde.

22. Fishy-Fiona

Bacterial Vaginosis

STAT: Amstel Criteria / Whiff test (+) / pH > 4.5 / Clue Cells.
POWER: The Odor-Cloud.
LORE: Gardnerella overgrowth. Replaces good guards with biofilm.

23. Tricky-Trish

Trichomoniasis

STAT: Strawberry Cervix / Flagellated protozoa / pH > 4.5.
POWER: The Green-Proth.
LORE: STL. Requires the Metronidazole-Hammer for both partners.

24. Prolapse-Prue

The Pelvic-Floor-Drop

STAT: Cystocele (Bladder) / Rectocele (Bowel) / Uterine Prolapse.
POWER: The Floor-Drop.
LORE: Snapped ligament cables. Needs Pessary-Plug or Surgical-Sling.

25. Endometrial-Edna

The Lining-Rebel

STAT: Post-menopausal bleeding / Thick stripe > 4mm.

POWER: The Lining-Rebel.

LORE: Driven by unopposed Estrogen. Any menopausal bleed is Edna.

27. Germ-Cell-Gerry

The Monster-Maker

STAT: Teratoma / Young patients / hCG and AFP markers.

POWER: The Monster-Maker.

LORE: Primitive egg cell origin. Usually benign, but causes Torsion-Twists.

26. Ovarian-Olivia

The Silent-Spreader

STAT: CA-125 / Bloating / Late-stage diagnosis.

POWER: The Silent-Spreader.

LORE: Hard to catch. Grows quietly in the basement with room to hide.

28. Chorio-Casper

Gestational Trophoblastic

STAT: Snowstorm on ultrasound / hCG in the millions.

POWER: The Phantom-Pregnancy.

LORE: Molar-Pregnancy with Dad's DNA only. Can attack lungs.

29. Terbutaline-Terry

The Tocolytic

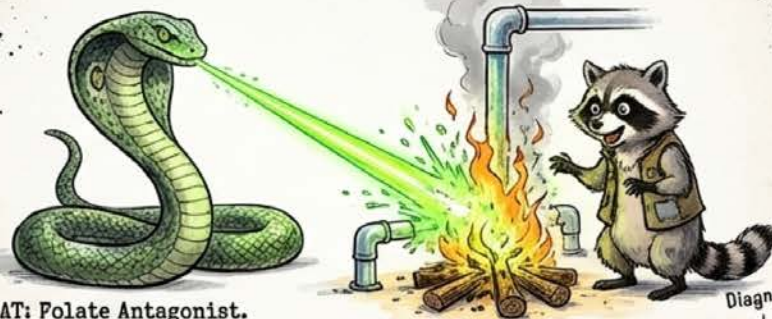

STAT: Beta-2 agonist.
POWER: The Contraction-Break.
LORE: Relaxes smooth muscle.
Causes maternal racing heart and tremors.

Diagnosis?! ☕

30. Metho-the-Melt

Methotrexate

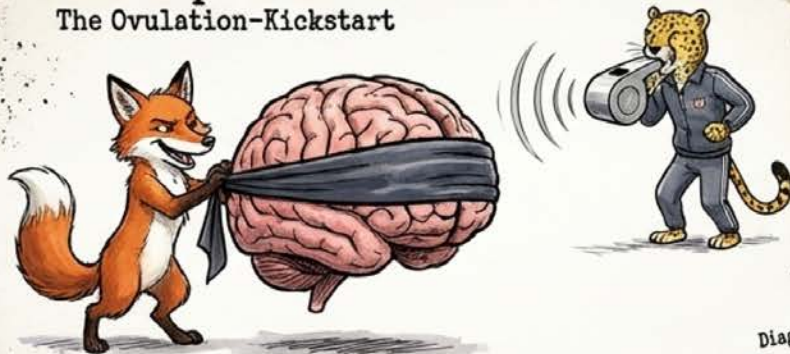

STAT: Folate Antagonist.
POWER: The Squatter-Evictor.
LORE: Stops fast-growing cells.
Melts Eddie if hCG isn't too high.

Diagnosis?! ☕

31. Clomiphene-Clem

The Ovulation-Kickstart

Diagnosis?! ☕

STAT: SERM (Selective Estrogen Receptor Modulator).
POWER: The Ovulation-Kickstart.
LORE: Tricks brain into thinking Estrogen is low, forcing more FSH.

32. Rhogam-Rhonda

The Antibody-Blinder

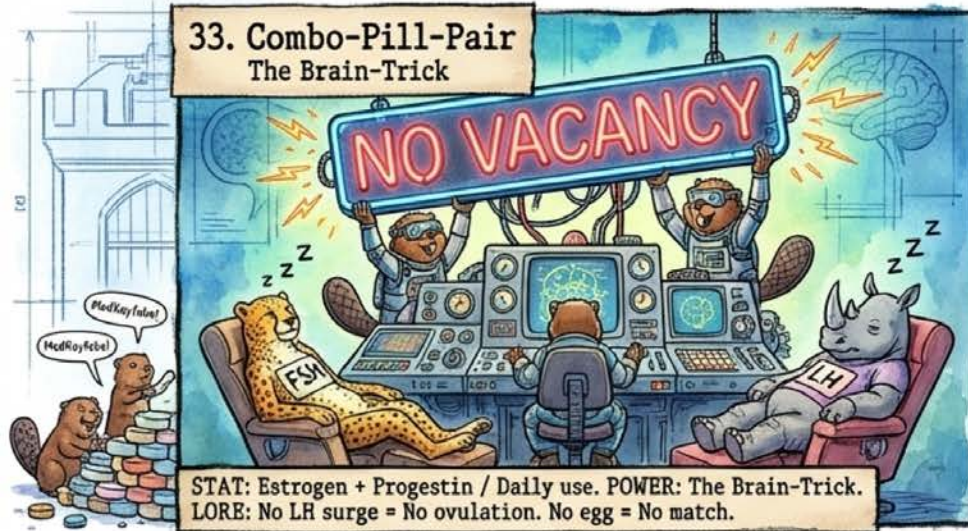

Diagnosis?! ☕

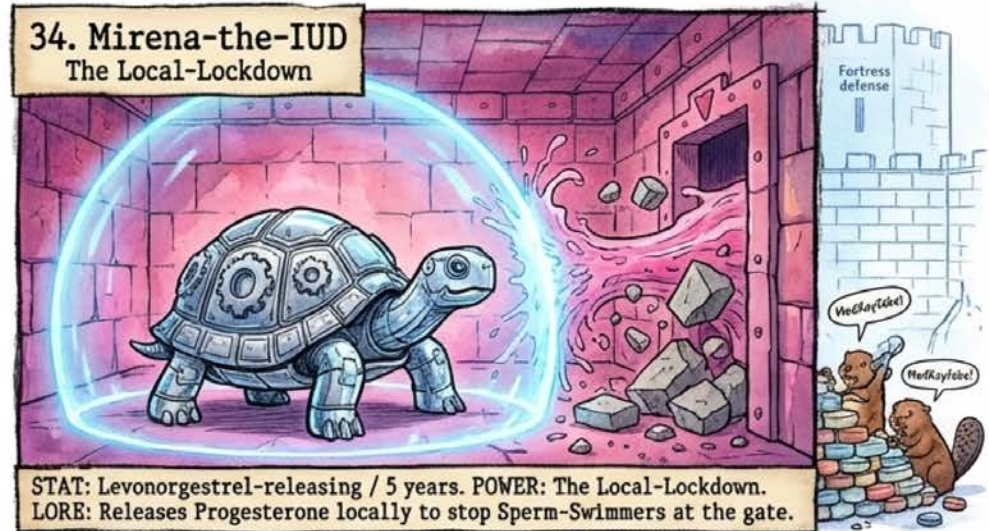

STAT: Anti-D Immune Globulin / Given at 28 weeks & birth.
POWER: The Antibody-Blinder.
LORE: Stops Rh-negative mom from attacking Rh-positive Future-Fighter.

33. Combo-Pill-Pair The Brain-Trick

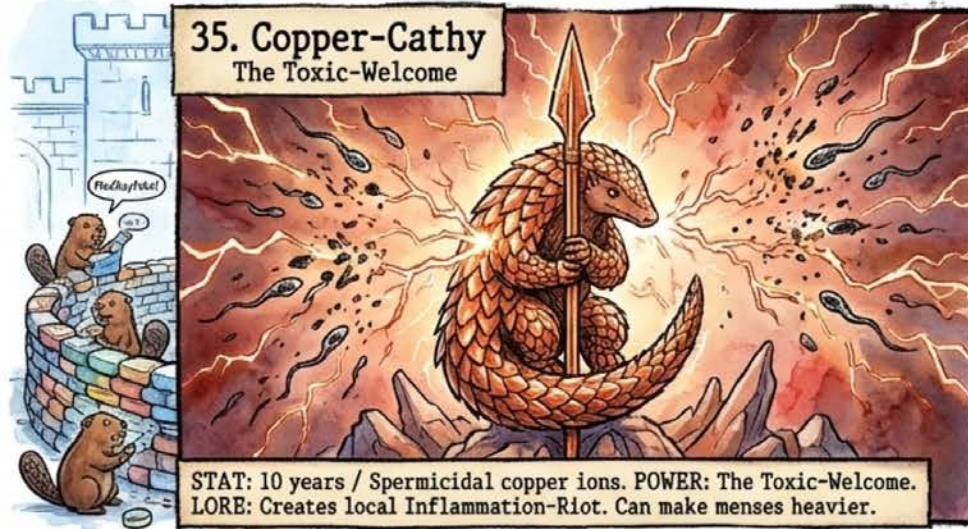

STAT: Estrogen + Progestin / Daily use. POWER: The Brain-Trick.
LORE: No LH surge = No ovulation. No egg = No match.

34. Mirena-the-IUD The Local-Lockdown

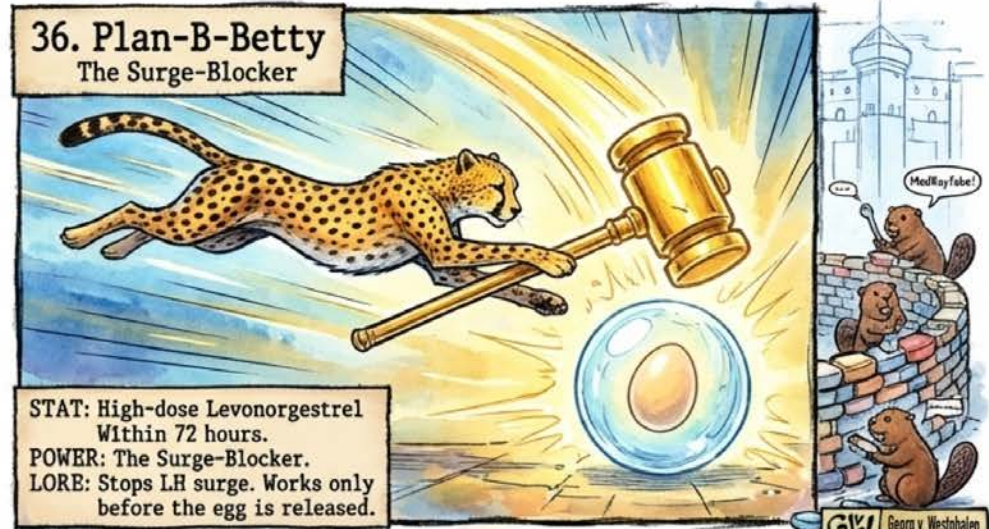

STAT: Levonorgestrel-releasing / 5 years. POWER: The Local-Lockdown.
LORE: Releases Progesterone locally to stop Sperm-Swimmers at the gate.

35. Copper-Cathy The Toxic-Welcome

STAT: 10 years / Spermicidal copper ions. POWER: The Toxic-Welcome.
LORE: Creates local Inflammation-Riot. Can make menses heavier.

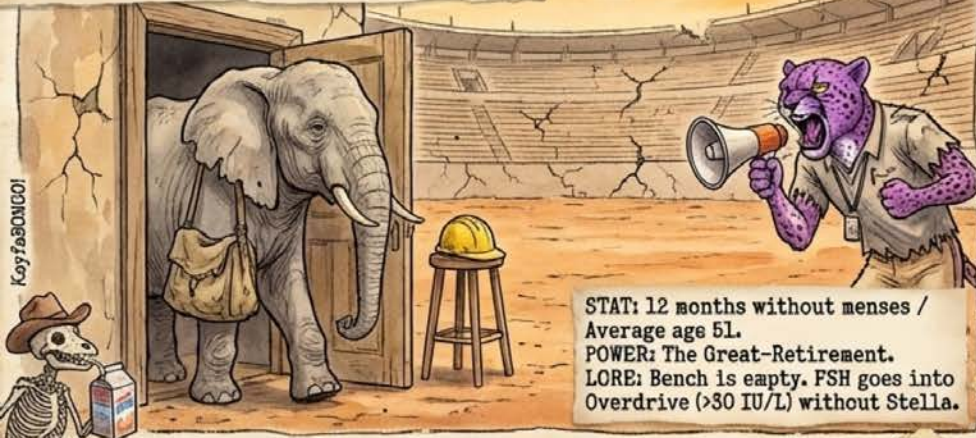

36. Plan-B-Betty The Surge-Blocker

STAT: High-dose Levonorgestrel
Within 72 hours.
POWER: The Surge-Blocker.
LORE: Stops LH surge. Works only
before the egg is released.

37. Meno-Pause-Mary

The Great-Retirement

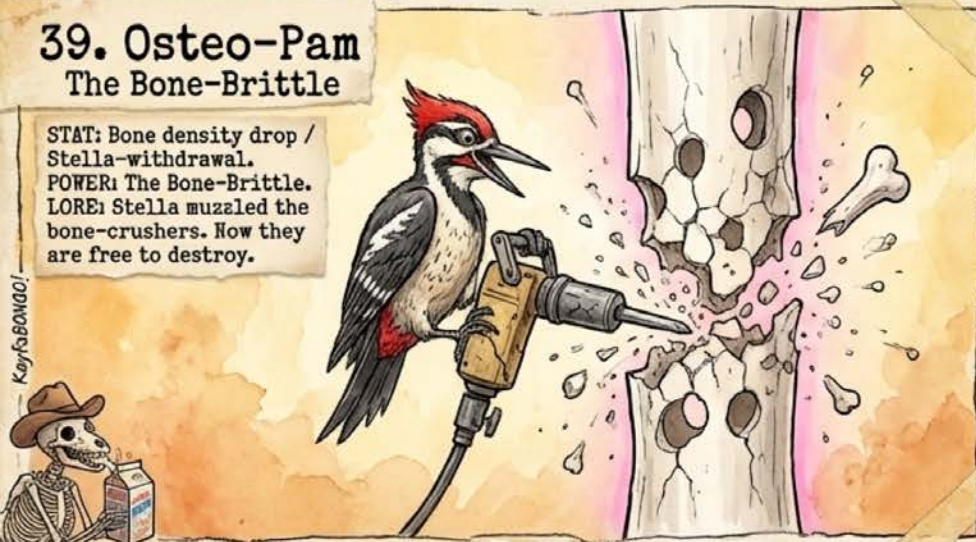

38. Atrophy-Annie

The Desert-Effect

39. Osteo-Pam

The Bone-Brittle

40. Hot-Flash-Hanna

The Internal-Inferno

41. Hysterectomy-Hy "The Fortress-Removal"

STAT: Total (Cervix out) vs. Subtotal (Cervix stays).
POWER: The Fortress-Removal.
LORE: Final answer for Fibroids/Cancer.
Hormones stay if ovaries stay.

42. Laparo-Laura "The Minimal-Trespass"

STAT: CO2 Insufflation / Trocar ports.
POWER: The Minimal-Trespass.
LORE: Fixes Ectopics via tiny holes.
Beware the Phrenic-Phantom (shoulder pain).

43. D&C-Dan "Dilation & Curettage"

STAT: Opening the cervix and scraping the lining.
POWER: The Carpet-Clean.
LORE: The Reset-Button for heavy bleeding
or a Miscarriage-Melt.

44. Cerclage-Celia "The Gate-Lock"

STAT: Incompetent Cervix / McDonald vs. Shirodkar.
POWER: The Gate-Lock.
LORE: Prevents 2nd-Trimester loss.
Removed when Labor-Lions are ready.

Diagnosis?!

45. Baseline-Barry

"The Life-Beat"

STAT: 110-160 bpm /
Normal range.
POWER: The Life-Beat.
LORE: >160 think infection.
<110 think Cord-Crush.

46. Variable-Vince

"The Cord-Kink"

STAT: Abrupt drop /
V-shaped on monitor.
POWER: The Cord-Kink.
LORE: Occasional is okay.
Recurrent means baby
loses oxygen during squeeze.

STAT: Abrupt drop / V-shaped on monitor.
POWER: The Cord-Kink.
LORE: Occasional is okay. Recurrent
means baby loses oxygen during squeeze.

47. Late-Larry

"The Placental-Failure"

STAT: Gradual drop / Starts
after contraction peak.
POWER: The Placental-Failure.
LORE: Uteroplacental
Insufficiency. Placenta can't
keep up. Rescue needed.

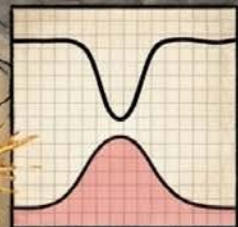

Diagnosis?!

48. Early-Eddie

"The Head-Squeeze"

STAT: Mirrors contraction /
Peak drop matches peak squeeze.
POWER: The Head-Squeeze.
LORE: Benign. Baby is moving down
the ladder. No rescue needed.

Diagnosis?!

49. Leopold-Maneuver

The Position-Map

STAT: Finding the head, the back, and the limbs.
POWER: The Position-Map.
LGR: Determines Vertex (Head-Down) vs Breech (Bottom-Down).

50. APGAR-Scribe

The Welcome-Score

STAT: Score 0-10 at 1 and 5 minutes.
POWER: The Welcome-Score.
LORS: Low score on Appearance/Pulse/Grimace/Activity/Respiration summons Rinjas.

51. Whiff-Test Detective

The Fishy-Finder

STAT: Potassium Hydroxide (KOH) + Discharge.
POWER: The Fishy-Finder.
LORS: If it smells like dead fish, Bacterial-Vaginosis is present.

52. Fern-Sign

The Leak-Confirm

STAT: Crystallisation of amniotic fluid on a slide.
POWER: The Leak-Confirm.
LORS: If the fluid 'Ferns', the Uterine-Portress has been breached (Water broke).

53. Doc FrizzleBob

The Life-Guarantor

STAT: Master of the Speculum / Forceps Specialist.
LORE: Is the baby happy? Is the mother stable? Deliver the truth!

Quest 2: The Late Fade

SCENARIO / Level 2

CASE: Monitor shows heart rate dropping after contraction ends.
QUEST: Identify the rhythm (**Late-Larry**) and name the failing negotiator (**Placenta-Phil**).

Quest 1: The Outlaw Tube

SCENARIO / Level 1

CASE: 28yo, 1-sided pain, hCG 3000, empty uterus.
QUEST: Identify the Outlaw and choose the weapon: Metho-the-Melt or Laparo-Laura?

Quest 3: The Menopausal Bleed

SCENARIO / Level 3

CASE: 60yo, hasn't bled in 10 years, sudden spotting.
QUEST: Name the Onco-Outlaw to rule out (**Edna**) and the tool needed (**D&C-Dan**).

Stay fluffy — and guard the threshold!
