HILFE, ICH BIN EIN MENSCH! AN EXPANSION PACK FOR ANTHROPOLOGY, PSYCHOLOGY, AND HUMAN NATURE-WRESTLING

BOOTLEG
PROOF

ARTIST PR GW Georg v. Westphalen

Chapter 1: The Survival of the Fluffiest

Egoism is for amateurs. Real apex predators hold hands.

THE MASTER ARCHITECT

POWER: Replaces the 'Every Man for Himself' rule with the 'Cooperation Engine,' building complex life over 4 billion years.

LORE: Evolution is not a solo deathmatch; cooperation is its ultimate master architect.

THE ULTRA-COOPERATOR

POWER: Activates Super-Altruism, Language, and Shared Childcare to out-compete solitary apex predators.

LORE: The human animal's true superpower isn't teeth or claws—it's weaponized teamwork.

ALLOPARENTING DAYCARE

POWER: Distributes the excruciating biological cost of raising offspring across the entire village network.

LORE: We are successful because we are not meant to raise our young alone.

THE SOCIAL LIGHTHOUSE

POWER: Broadcasts internal emotional data to strangers at the speed of light, bypassing verbal deceit.

LORE: The face evolved as an involuntary beacon to establish instant trust in the wild.

KayfaBONGO!

KayfaBNo!

SHH!

MEEP!

TRUTH BEAM!

Chapter 2: The Meat-Sack Connectivity Protocol

Hell is other people. But the void is much, much worse.

THE LONELINESS SMOKER

POWER: Deals catastrophic cardiovascular and immune damage daily, equivalent to 15 cigarettes, to isolated entities.
LORE: We are biologically tethered; unwanted solitude is lethal to the meat-sack.

KayfaBON60!

THE IMMUNE-BOOSTING HUG

POWER: Deploys a targeted cellular defense matrix that repels physical and psychological pathogens.
LORE: Social support isn't a luxury; it is the frontline of the biological immune system.

KayfaBmo!

THE TRUST ELIXIR

POWER: Grants a permanent +10 Months buff to the user's total life expectancy.
LORE: Believing that your fellow creatures are fundamentally decent literally keeps you from dying.

SUM!

MEEP!

THE MICRO-ENCOUNTER

POWER: Instantly restores 15% of daily psychological health points for zero cost via a brief stranger interaction.
LORE: Even a fleeting, friendly exchange with an unknown entity significantly elevates baseline well-being.

TRUTH BEAM!

GW

Georg v. Westphalen

Chapter 3: The Innate Justice System

Morality wasn't invented by priests, it was invented by babies.

THE INNATE COMPASS

POWER: Allows pre-verbal infants to instinctively detect and favor "Helpers" over "Hinderers".
LORE: Morality isn't drilled into us by civilization; it comes pre-installed in the factory settings.

HUMBUG!
Order in the court!

THE TODDLER'S FAIR SHARE

POWER: Overrides childish greed, forcing equal distribution of loot after a co-op mission.
LORE: When work is shared, human nature naturally demands an equal split of the rewards.

SUM!

MECP!

INEQUALITY AVERSION

POWER: Triggers absolute psychological rejection of rigged systems and unfair payouts.
LORE: We would rather have nothing at all than accept a system that treats us unfairly.

FEED ME!
NO, YOU!

THE HONEST WALLET

POWER: The higher the cash value inside the wallet, the higher the probability it gets returned.
LORE: Cynics are wrong: trusting people with high stakes actually triggers their innate honesty.

TRUTH BEAM!

Chapter 4: Debunking the Parasite

If everyone is out for themselves, why are we still here?

HOMO Oeconomicus

POWER: Acts with pure, unadulterated selfishness, maximizing personal profit at all costs.
LORE: A phantom menace; only 7% of the population actually fits this dismal economic model.

THE TIPPING POINT TUG-O-WAR

POWER: Maintains systemic harmony as long as the 60-70% cooperative majority outnumbers the free-riders.
LORE: Society collapses only when the cooperative majority realizes they are being played by the selfish minority.

THE DEFENSIVE PORCUPINE

POWER: Unleashes lethal aggression—but only when the sacred bonds of the community are threatened.
LORE: Humans lack an innate drive to kill; aggression is a secondary defense mechanism for love.

THE HESITANT SOLDIER

POWER: Activates an innate "Kill-Inhibition," causing the entity to intentionally miss their targets in combat.
LORE: The hardest thing to teach a human to do is to take the life of another human.

KayfaBINGO!

KayfaBINGO!

Chapter 5: The Dopamine Givers

Generosity is a highly infectious neurological virus.

THE DOPAMINE GIVER

POWER: Hijacks the brain's reward center, pumping raw dopamine into the bloodstream upon helping others.
LORE: True altruism exists; the biological machinery makes giving measurably more blissful than taking.

ALTRUISTIC RIPPLE EFFECT

POWER: Causes generous actions to cascade through a social network like an airborne pathogen.
LORE: Goodness is infectious. One act of kindness infects the entire grid.

THE EMPATHIC RESCUER

POWER: Overrides the instinct for self-preservation to protect vulnerable out-group members during a crisis.
LORE: The greatest heroes in history were raised with empathy and self-determination, not blind obedience.

THE OBEDIENCE BREAKER

POWER: Nullifies authoritarian commands. Immune to the "Just Following Orders" debuff.
LORE: A strict, punitive upbringing breeds compliance; a free, empathic one breeds moral courage.

Running runs gags with and micro-test.

Stay fluffy!

KayfaBOGGLE!

Chapter 6: Carrots, Sticks, and Bullshit

"Pay me to bleed, and I'll keep my blood."

THE INNATE EXPLORER

POWER: Generates infinite energy and focus without the need for external rewards.

LORE: Humans are not naturally lazy; we are born as relentless, intrinsically motivated curiosity machines.

THE BLOOD MONEY PARADOX

POWER: Decreases participation rates when civic duty is replaced by market transactions.

LORE: Offering money for a moral act cheapens the social currency of the sacrifice.

Cash for Souls

THE EXTRINSIC CORRUPTOR

POWER: Introduces cash rewards to a passion project, immediately killing the internal joy of doing it.

LORE: Financial incentives often destroy the very motivation they are designed to create.

Incentivize THIS

THE BULLSHIT JOB

POWER: Drains maximum psychological health by forcing the entity to perform meaningless, invisible tasks.

LORE: A lack of self-efficacy and purpose at work is a fast track to physical and mental illness.

Work till you croak.

Chapter 7: The Technological Debuff

"We built god-like tools, but we still have monkey hardware."

THE WEALTH BLINDFOLD

POWER: As resource hoarding increases, the entity's empathy and situational awareness stats plummet.
LORE: Massive wealth doesn't just buy luxury; it biologically dampens our compassion for the collective.

THE MULTITASKING DRUNKARD

POWER: Simulates a heavy alcohol-induced cognitive impairment while attempting to do three things at once.
LORE: The brain cannot parallel process focus; multitasking lowers your effective IQ to that of a drunk.

THE SMARTPHONE WALL

POWER: Merely placing this object on a table instantly degrades the depth and empathy of any conversation.

LORE: Digital connectivity tools physically destroy the fragile architecture of real-world empathic presence.

LORE: Digital connectivity tools physically destroy the fragile architecture of real-world empathic presence.

NATURE'S ANTIDOTE

POWER: Clears all 'Stress' and 'Depression' debuffs simply by standing near it for 20 minutes.

LORE: The natural world is a potent, side-effect-free medication for the modern nervous system.

LORE: The natural world and "Depression" debuffs simply by standing near it to modern nervous system.

Chapter 8: The Reality Distortion Field

Assume everyone is a jerk, and you will single-handedly build Hell.

SELF-FULFILLING PROPHECY

POWER: Shapes external reality to perfectly match the user's darkest, most cynical internal assumptions.
LORE: Our view of human nature is not just an observation; it is a blueprint we force others to live out.

THE MATERIALISTIC STRESSOR

POWER: Converts the pursuit of status symbols into chronic, atatomic biological inflammation.
LORE: A life dedicated solely to acquiring things is interpreted by the body as a state of constant threat.

THE EUDAIMONIC ENGINE

POWER: Decreases inflammatory genes and boosts immunity through the pursuit of deep, meaningful purpose.
LORE: Hedonistic pleasure is fleeting, but a life of meaning changes your very genetic expression.

THE PHANTOM EGOIST

POWER: Forces the observer to mathematically overestimate the selfishness of everyone around them.
LORE: We are systematically blind to the goodness around us; people are vastly more cooperative than we think.

KayfaBIZARRO!

The Hidden Influence Modifiers

How to hack a primate in three easy steps.

Stay fluffy, steal everything!

THE POSITIVE LABEL

POWER: Bestows a massive behavioral upgrade simply by telling an entity they are naturally helpful.
LORE: People rise to the exact level of the expectations you place upon them.

THE HARD SLAP

POWER: Permanently slows the cognitive development and trust-metrics of targeted offspring.
LORE: Authoritarian violence against children doesn't create discipline; it creates neurological damage.

THE RECOGNITION STARVATION

POWER: Drains the target's life force by withholding acknowledgment for their hard work.
LORE: A lack of appreciation is deadlier to human motivation than a lack of resources.

THE COMMUNITY ILLUSION

POWER: Mimics the dopamine hit of friendship while providing zero of the biological immunity benefits.
LORE: Social media is junk food for the social brain—it fills the stomach but starves the cells.

Social Brain Decay!

Uncle FrizzleBob's Cooperative Compendium

The invisible architecture of keeping the monkeys from killing each other.

THE EMPATHY MIRROR

POWER: Installs an uncontrollable hardware reflex that forces you to feel another's pain as your own.
LORE: Empathy isn't a choice or a moral high ground; it is an involuntary mirroring of the nervous system.

THE TIT-FOR-TAT TANGO

POWER: Establishes the ultimate winning game-theory strategy: Cooperate first, then mirror your partner.
LORE: The most mathematically successful strategy in nature is simple, forgiving, and fiercely reciprocal.

THE ARTIFICIAL SCARCITY

POWER: Tricks a hyper-social species into believing there isn't enough to go around, triggering panic protocols.
LORE: Greed is usually a trauma response to the manufactured illusion of scarcity.

THE ULTIMATUM ENFORCER

POWER: Activates Mutually Assured Destruction to punish those who violate the sacred rule of fairness.
LORE: We will gladly sabotage our own economic gain if it means punishing a cheater.

KayfaBINGO!

GW

Georg v. Westphalen

THE BOSS FIGHTS OF HUMAN NATURE

THE MEANING MAKER

You are the arena. Good luck.

THE CYNIC'S DELUSION

POWER: Transmutes the chaotic, painful noise of survival into a coherent, beautiful narrative. **LORE:** Without a "why," humans wither; with a "why," we can survive almost any "how."

POWER: Equates dark pessimism with intellectual superiority, blinding the user to actual data. **LORE:** Cynicism masquerades as wisdom, but it is scientifically the most inaccurate view of humanity.

THE FOUR-BILLION-YEAR DRAFT

POWER: Proves that the long arc of the universe bends toward complexity, connection, and mutual aid. **LORE:** The ultimate lesson of biology is that life prefers to build together rather than die alone.

THE FLUFFY ANARCHIST

POWER: Erases the narrative that you are a selfish machine, granting you the freedom to choose cooperation. **LORE:** You are an ultra-cooperative primate. The game is rigged, but you hold the pencil.

HUMBUG!

RISE UP!

Expansion Set: The Primal Hardware

Your software was updated yesterday, but your hardware is from the Pleistocene.

THE TRIBAL SHIELD

POWER: Generates absolute loyalty and physical protection for those recognized as part of the "In-Group."
LORE: We are capable of immense sacrifice, but the trick to world peace is expanding the definition of "Us."

THE GOSSIP NETWORK

POWER: Regulates social behavior by broadcasting reputations across the collective grid at light-speed.
LORE: Language didn't evolve just to hunt mammoths; it evolved to warn the tribe about free-riders.

THE STATUS TREADMILL

POWER: Resets your baseline happiness to zero immediately after acquiring a new material possession.
LORE: The brain quickly normalizes luxury; you cannot buy your way out of the human condition.

THE EYE OF THE JUDGE

POWER: Increases prosocial behavior by 50% simply by making the entity feel like it is being watched.
LORE: Even a mere picture of eyes on a wall forces the primate brain to adhere to cooperative norms.

Expansion Set: The Invisible Saboteurs

The call is coming from inside the brain.

THE EMPATHY FATIGUE

POWER: Drains the user's emotional reserves when exposed to infinite, unactionable global tragedies.
LORE: We evolved to care deeply about a village of 150 people, not the agonizing suffering of 8 billion.

THE INTRINSIC FLAME

POWER: Burns infinitely as long as the entity feels autonomy, mastery, and purpose.
LORE: You cannot ignite this flame from the outside; you can only provide the oxygen for it to burn.

THE ZERO-SUM GOBLIN

POWER: Creates the toxic illusion that someone else's success requires your failure.
LORE: Love, trust, and knowledge are anti-fragile; they multiply when shared. The goblin is a liar.

THE PRO-SOCIAL GAMBLE

POWER: Risks vulnerability in exchange for the chance to forge an unbreakable alliance.
LORE: Trust is the ultimate risk; but a society without trust is biologically and economically bankrupt.

BLODSINN!

Humbug!

GW

Georg v. Westphalen

Final Chapter: How to Win the Meta-Game

Print these out, cut them up, and tape them to your mirror.

THE VULNERABILITY LOOP

POWER: Disarms the defensive mechanisms of hostile entities by showing your own soft underbelly first.
LORE: Connection requires the terrifying courage to be seen without your psychological armor.

THE OPTIMIST'S REBELLION

POWER: Rejects the cultural default of despair, actively searching for the cooperative signal in the noise.
LORE: In a world that profits from your panic and cynicism, fierce optimism is an act of punk rebellion.

THE VILLAGE HEARTH

POWER: The ultimate win-state. Heals trauma, extends life, and generates infinite meaning.
LORE: The expedition ends where it began: We survive only when we sit by the fire together.

THE BLANK CARD

POWER: Allows the user to dictate the future of human evolution through their daily, microscopic choices.
LORE: The story of human nature isn't finished. You are the architect now. Draw carefully.

What the FLUFF?!
We're done here.
Stay fluffy!
