

Georg von Westphalen

THE DIFFERENTIAL ENGINE

Don't just see the patient; solve the puzzle. Stay fluffy!

Call Doc Frizzle!
What the FLUFF?!

PREVAL-THE-PRIOR (PREVALENCE)

STAT: Pre-test probability
When you hear hoofbeats...

POWER: The Grounding-Force.
Prevents the Rare-Disease-
Distraction unless evidence
is overwhelming.

LORE: Bayesian Logic. The
starting point dictates the
weight of any new Signal.

BAYESIAN BASE! DON'T FORGET!

SENSI-THE-SCREEN (SENSITIVITY)

STAT: SnNout
(Sensitive, Negative, Rules Out)

POWER: The Safety-Net. If Sensi
is negative, the Lethal-Option
is taken off the table
completely.

LORS: Low False-Negative rate.
The Security-Guard at the
entrance of the arena.

SAFETY NET!
CATCHES ALL THREATS!

KayfaBINGO!

PATHOG-THE-PIVOTER (PATHOGNOMONIC)

STAT: Specificity = 100%
LR+ = Infinity

POWER: The Instant-Verdict.
Bypasses the Reasoning-Engine
for a direct win. Match over.

LORE: A Silver-Bullet finding.
Extremely rare, but universally
fatal to diagnostic doubt.

SPECI-THE-SNIPER (SPECIFICITY)

STAT: SpPin
(Specific, Positive, Rules In)

POWER: The Confirmer.
Identifies suspects with surgi-
cal precision. If positive, the
suspect is guilty.

LORS: Low False-Positive rate.
Prevents Friendly-Fire and
overtreatment.

CONFIRMER!
SURGICAL PRECISION!

CONFIRMER!
SURGICAL PRECISION!

RED-FLAG-REGGIE (THE ALARM)

STAT: Must-not-miss list
/ High mortality

POWER: The Arena-Stop. Demands you prove the wrestler isn't dying from a catastrophic event.
LORE: Risk-stratification. In the Emergency-Arena, we seek the most dangerous first, not the most likely.

DANGER! WATCH FOR REGGIE!

ZE-THE-ZEBRA (RARE DIAGNOSIS)

STAT: 1 in 100,000 /
Orphan diseases

POWER: The Long-Shot. Enters only when Preval-the-Prior has completely failed.
LORE: Think of Zebras when stripes don't fit the horse. The final chapter of a mystery.

ZEBRA HUNTING!

VINDICATE-THE-MNEMO (THE CATEGORY)

STAT: Vascular, Infect,
Neoplas, Drug, Inflam, Coaggen,
Autoimm, Trauma, Endo

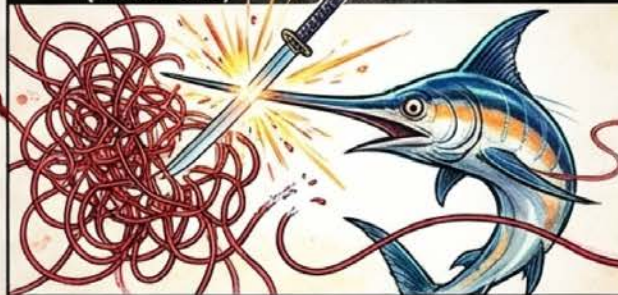

POWER: The Expansion-Burst. Forces a check of every Biological-Category to find the hidden path.
LORE: A heuristic to prevent Premature-Closure-the-Lockdown. A total-system scan.

MNEMONIC MADNESS!

OCCAM-THE-RAZOR (PARSIMONY)

STAT: Simplest explanation
is usually correct

POWER: The Logic-Cut. Slices 10 symptoms to show they are caused by a single Master-Antagonist.
LORE: Law of Parsimony. Why 5 diseases when 1 explains everything?

WIMMELBILD CONFIRMED!

**RAZOR
SHARP
LOGIC!**

**DOWN WITH
BORDERS!**

Chest-Pain-Charlie (Differential)

STAT: The Big Five
(ACS, PE, Diss,
PTX, Rupture)

POWER: The High-Stakes-Pivot. Force a logic branch immediately: Pipes vs. Balloons.
LORE: Masterclass in Branching. Every answered question kills one path and fuels another.

HIGH
STAKES!

FIVE
PATHS!

Fever-the-Flame (Fever + Rash)

STAT: Meningo, TSS,
SJS, Kawasaki

POWER: The Rapid-Screen. If the rash Doesn't-Blanch, the Sepsis-Siren rings.
LORE: Recognizing lethal, high-speed patterns in the skin-arena.

DOESN'T
BLANCH
= DANGER!

SIREN
RINGS!

MedKayfabe!

Syncop-the-Drop (Syncope)

STAT: Vasovagal
vs. Cardiac vs.
Orthostatic

THREE
PULLS!

POWER: The History-Heuristic. Drop-Suddenly (Cardiac) vs Fade-Slowly (Vasovagal) sets the Risk-Tler.
LORE: Analyze temporal onset to distinguish a Pump failure from a Pipe failure.

Dyspnea-the-Drown (Shortness of Breath)

STAT: Heart vs.
Lung vs. Pipe

WATER
OR SMOKE?!

POWER: The Fluid-vs-Air-Scan. Is the lung-sponge full of water, or is the airway-tunnel blocked?
LORE: Use the Silhouette-Sign and Lung-Sounds to branch the diagnostic tree.

PROTEST
GAMES

PROTEST
BORDERS

To the
Void

To the Spleen

To the Void

To the Spleen

To the Void

To the
Spleen

System-1-the-Flash (Heuristic)

STAT: Intuition
Fast thinking
Pattern match

POWER: The Instant-Read. Recognizes a Classic-Match-Up in seconds based on 10,000 previous reps.
LORE: High speed, low energy. Prone to severe Blas-Traps if the match is unusual.

Heuristi-the-Shortcut

STAT: Representative heuristic / Availability bias

POWER: The Pattern-Hack. Skips 10 steps of logic by recognizing a Signature-Move.
LORE: Mental shortcuts. If it looks like a duck and quacks like a duck...

System-2-the-Thinker (Analytic)

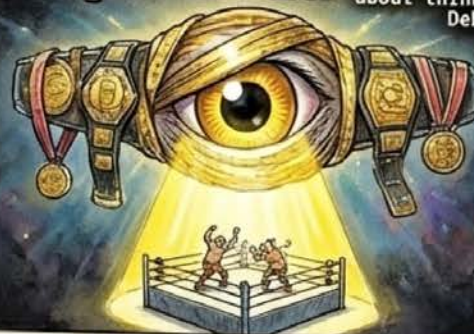

STAT: Logical
Slow
Rule-based

POWER: The Deep-Analysis. Builds a Differential-Table from scratch when the Flash fails.
LORE: High energy critical thinking. Essential to catch Zebras and stop Flash-Errors.

Metacog-the-Overseer

STAT: Thinking about thinking
Debias

POWER: The Self-Check. Mid-match override: What else could this be? Why am I choosing this?
LORE: Cognitive monitoring. The only entity that can defeat Anchor-the-Bias.

FAST THINKING!

SLOW DOWN!

BLÖDSINN!

SHORTCUTS!

SELF-AWARENESS!

To the Spleen

To the Void

To the Void

Anchor-the-Heavy (Anchoring Bias)

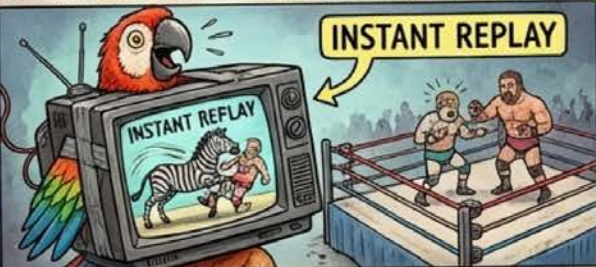

STAT: First info dictates the whole match

POWER: The Mental-Lock. Hooks the team onto the First-Impression, ignoring all subsequent Red-Flags.
LORS: The supreme cognitive saboteur. Once the Anehor drops, the Engine stops.

Availab-the-Recent (Availability Bias)

STAT: Recent/vivid cases override logic

POWER: The Memory-Flashback. Applying last week's vivid Zebra to every common cough today.
LORE: The Recency-Trap. Vividness does NOT equal Prevalence.

Confirma-the-Filter (Confirmation Bias)

STAT: Seeking only supporting info

POWER: The Data-Shredder. Only sees stats proving him right; annihilates data proving him wrong.
LORE: The Echo-Chamber effect. Turns a Differential into a Self-Fulfilling-Prophecy.

Prematur-the-Closure (Premature Closure)

STAT: Stopping the search too early

POWER: The Victory-Bell. Rings the final bell at the very first explanation found.

LOVE: The most common error in medicine. Once a diagnosis is made, the thinking stops.

KayfaBOGGLE!

Likeli-the-Ratio

(Likelihood Ratio) STAT: $LR+ = \text{Sena}/(1-\text{Spec})$
 $LR- = (1-\text{Sena})/\text{Spec}$

POWER: The Probability-Skifter. Tells you exactly how much a physical sign changes the Match-Odds.
LORE: The Math-of-the-Match. $LR > 10$ makes it highly likely; $LR < 0.1$ makes it nearly impossible.

Nomogram-the-Calculator

STAT: Pagan Nomogram
 Pre-to-Post test

POWER: The Odde-Wayper. Draws a straight line from Preval through Likeli to dictate Truth.
LORE: Visual Bayes' Theorem. Turns gut-feelings into cold Data-Destiny.

Baseline-the-Norm

STAT: Reference ranges
 Normal variation

POWER: The Background-Filter. Prevents overreaction to Minor-Glitches that are normal for this wrestler.
LORE: Understanding Biological-Noise. Not every abnormal stat is a disease.

Trend-the-Arrow (Dynamics)

STAT: Rate of change
 Delta-values

POWER: The Motion-Detector. Ignores the current stat; only cares if the number is Rising or Falling.
LORE: A stable high-stat is often much safer than a rapidly rising low-stat.

Diagnosis?!

NOMOGRAMS FOR ALL!
 DOWN WITH THE RATIO!

Overdia-the-Excess (Overdiagnosis)

STAT: Identifring
conditions that cause
no harm

POWER: The Ghost-Infection. Treats maor glitches as lethal monstere, causing more harm than the disease.
LORE: The Downside-of-Sensi. A test that is too fine catches dangerous amounts of junk.

Silent-the-Stalker (False Negative)

STAT: Type 2 Error / β

POWER: The Invisible-Attack. Test says Negative, but Reggie is eating the health-bar from the inside.
LORE: Sensitivity-Failure. The most dangerous glitch in the entire Sagnae.

False-the-Alarm (False Positive)

STAT: Type 1 Error / α

POWER: The Mirage. The test screams positive, but there is no enemy. Causes unnecessary invasive panic.
LORE: Specificity-Failure. Arena-Panic without a real threat.

Inciden-the-Oma (Incidentaloma)

STAT: Found by accident
during another search

POWER: The Distraction-Orb. Flooding a harmless spot that spawns 10 unnecessary side-quests.
LORE: The curse of High-Tech Imaging. Creates an inescapable Diagnostic-Rabbit-Hole.

ODD
ANIMAL

BORDERS

ODD
ANIMAST!

GW

Georg v. Westphalen

Pattern-the-Match (Gesture Recognition)

STAT: Non-analytical / Visual recognition

POWER: The Instant-Label. One look at the shape or rash, and the enemy's name is known.

LORE: System-1 Master. Relies entirely on the internal visual library of past Kayfabe encounters.

Inducto-the-Probable (Induction)

STAT: Bottom-up / Specific to General

POWER: The Likely-Story. Takes 5 specific symptoms and builds a general working theory.

LORE: The reality of clinical medicine. Dealing in Probabilities, not Certainties.

Deducto-the-Logic (Deduction)

STAT: Top-down reasoning / General to Specific

POWER: The Certainty-Chain. If the General-Rule is true and the Fact fits, the Outcome is guaranteed.

LORE: Mathematical logic in biology. All men are mortal; Socrates is a man.

Stay fluffy!

Abducto-the-Best-Guess (Abduction)

STAT: Inference to the best explanation

POWER: The Detective-Leap. Takes messy, incomplete data and gambles on the single most sensible explanation.

LORE: The absolute core operating mechanic of the Differential Engine.

Probabil-the-Spectrum

STAT: 0% to 100%/
No binary outcomes

POWER: The Gray-Vision.
Reminds the team that
every diagnosis is
just a Confidence-Bar,
never 100%.

LORE: Fighting the
Binsry-Bias. Clinical
life is lived permanently
in the Gray-Zone.

NO BLACK/WHITE!

Test-of-Time-the-Slow-Reveal

STAT: Observation/
Serial exams

POWER: The Wait-and-See.
Uses ticking Time as a
literal diagnostic
imaging tool.

LORE: Viral vs Bacterial.
Sometimes the smartest
test is just
Watching-the-Trend.

TICK TOCK!

Safety-Net-Sarah (The Exit Strategy)

STAT: If X happens, come
back / Discharge

POWER: The Rescue-Trigger.
Provides the Fall-Safe
for the wrestler to go
home safely while
uncertain.

LORE: You don't have to
be completely right
today, as long as the
Net is perfectly set.

CATCH ME!

Triage-the-Sorter

STAT: Red, Yellow,
Green tags

POWER: The Priority-Pulse.
Ignores the Sams of the
disease to focus purely on
How-Fast-Are-They-Dying?

LORE: Pure Resource
Management. Lethal-
Reggies get pushed to
the front of the line.

MOVE! MOVE! MOVE!

What the PLUPP?!

ODD ANIMAL!
ODD ANIMAL!

Search-the-Satisfier (Search Satisfaction)

STAT: Finding one thing and stopping

POWER: The Blind-Spot. Finding a broken rib and feeling so good you miss the ruptured spleen next to it.

LORE: The Second-Injury kills. Never stop searching just because you found one answer.

Framing-the-Perspective (Framing Effect)

STAT: Decisions change based on presentation

POWER: The Lens-Shift. 90% survival gets a Yes. 10% death gets a No. The math is identical.

LORE: The Psychology-of-Choice. The data is statis, but the Frame dictates the Power-Move.

Avail-the-Recent (Recency Bias - Redux)

STAT: The Last Case effect

POWER: The Ghost-Copy. Because you lost to a rare infection yesterday, you hallucinate it everywhere today.

LORE: Emotional-weight overrides statistical-weight. A glitch in pattern recognition.

Overconfi-the-Ego (Overconfidence Bias)

STAT: Calibration error / Expert-trap

POWER: The Shield-Drop. Believes he is too expert to need Homogram-Math or Safety-Nets.

LORE: The Attending-Aura is lethal. Hubris that ignores uncertainty.

KayfaBIZARRO!

Rule-Out-the-Ranger

STAT: Systematic exclusion

POWER: The Narrow-Down. Kills the 10 suspects one by one until only The-Truth survives.
LORE: Eliminate the impossible; whatever remains, however improbable, must be truth.

The Don't-Forget-the-Basics Bot

STAT: Vital signs / Physical exam

POWER: The Reality-Anchor. Interrupts Zebra-arguments to point out the wrestler is actively dying.
LORE: Prevents High-Tech-Tunnel-Vision. Vitals are the ultimate stat.

Rule-In-the-Confirmer

STAT: Building a positive case

POWER: The Evidence-Stacker. Gathers stats until the Diagnostic-Tower is too heavy to be anything else.
LORE: Constructive reasoning. Actively building the Story-of-the-Match.

The Second-Opinion Sage

STAT: Cognitive diversity / Fresh eyes

POWER: The Bias-Breaker. Enters mid-match to ask: What have you missed?
LORE: External validation. The only guaranteed tool to shatter an Anchor-Lock.

MedKayfabe!

Aggressi-the-Interventionist

STAT: High-risk / High-reward

POWER: The All-In. Executes the Surgical-Slam even if the diagnosis is highly uncertain.
LORE: Action-bias. Better to Do-Something than wait. Huge risk of Friendly-Pire.

Utility-the-Balancer (Expected Utility)

STAT: Probakility × Value of Outcome

POWER: The Trade-Off-Math. Decides if the Cancer-Screen is worth the Bio-pay-Pain.
LORE: Rational decision-making. Value-of-Victory vs Cost-of-the-Match.

Conserva-the-Watcher

STAT: Low-risk / Observation-focused

POWER: The Minimal-Trespass. Prefers Slow-Reveal and Safety-Nets over Invasive-Procedures.
LORE: Non-maleficence. First, do no harm.

Step-the-Ladder (Escalation)

STAT: Tiered approach / Least-to-Most invasive

POWER: The Controlled-Climb. X-ray, then CT, then Surgery. Novor skip a rung.
LORE: Syatematic escalation to prevent Resource-Burnout and trauma.

STOP DIAGNOSTIC CREEP!

MORE DATA = MORE TRUTH!

STOP DIAGNOSTIC CREEP!

SAVE THE PATIENT, NOT THE PROCESS!

The Sick-vs-Not-Sick Sorter

STAT: Gestalt /
The Doorway-Look

Waiting-Room

Life-Support

POWER: The Rapid-Triage. 2 seconds to know if it's a Lethal-Match or a Minor-Scuff.
LORE: Expert-Gestalt. The lightning-fast summation of 10,000 System-1 patterns.

BLÖDSINN!

The Atypical-Trickster (The Chameleon)

STAT: Unusual
presentation /
Silent symptoms

POWER: The Mislead. Presents with Stomach-Ache when it actually has a Heart-Halt.
LORE: Variance-In-the-Code. Elderly and diabetic wrestlers are Master-Tricksters.

DOUBLE AGENT!

The Typical-Presentation Portrait

STAT: Classic
textbook case

POWER: The Benchmark. The Perfect-Story. If the opponent matches the portrait, the win is automatic.
LORE: Prototype-theory. Comparing the Real-Match to The Ideal-Match.

BLÖDSINN!

The Dual-Diagnosis Duo (Hickam's Dictum)

STAT: Comorbidity
Two independent
enemies

POWER: The Double-Trouble. Slaying Occam-the-Razor. One explains Confusion, the other explains Pain.
LORE: Patients can have as many diseases as they damn well please.

MASTER TRICKSTER!

Doc FrizzleBob (The Attending)

STAT: Master of the Engine / Orchestrator

POWER: The Cognitive-Cosch. What else could this be?! Did you check the prior??!
LORE: Don't stop at the first elixir Stay Fluffy, and think twice!

FINAL QUEST!

FINAL QUEST!

WIN THE GAME!

KayfaBIZARRO!
Stay fluffy!

Quest 2: The Zebra in the Smoke

STAT: Synthesis: Recency vs Prior

POWER: Grooved the Logic. A mild cough triggers a High-Tech scan because of yesterday's vivid coss.
LORE: Identify Availab-the-Recent and restore the Grounding-Force of Prevalence!

CHECK YOUR BIASES!

DOUBLE FLUFFY!

Quest 1: The Anchored Heart

STAT: Synthesis: Blas vs Tool

POWER: Break the Trap. System-1 calls it Feed-Poison. The team ignores the Heart-Kistory.
LORE: Identify Anzor-the-Heavy and deploy Sula-Bat-the-Banger to save the netch!

WIN THE GAME!

Quest 3: The Chameleon's Fever

STAT: Synthesis: Trickster vs Mmo

POWER: The Hidden Search. Fever + Confusion, but no cough or pain.
LORE: Deploy YZABICATE-the-Mmo to defeat the Atypical-Trickster and find the Infection!

VINDICATE LIVES!
