

Georg von Westphalen

MedKayfab Nursing & Care:
The Vigilance Vanguard —
Bedside Bulwark & Comfort Command.
The 24/7 Shield. Stay fluffy!

While the Physician-Detectives hunt for the name of the enemy, the Nursing-Vanguard lives in the ring, 24/7. We are the Continuous Human Shield. We don't just carry out orders—we defend against the complications that kill.

Call Doc Frizzle!

Braden-the-Risk-Scouter

Pressure Risk

STAT: Braden Scale (6-23)
< 12 = High Risk

POWER: The Vulnerability-Scan. Identifies wrestlers with Paper-Armor about to tear from Moisture-Melt or Friction-Burn.
LORE: Pressure-sore prevention. If the Stat-Score is low, Skin-Armor falls within hours unless Position-Pivot is played.

Pivot-the-Positioner

Repositioning

STAT: 2-hour turning clock
30-degree lateral tilt

POWER: The Pressure-Redistribution. Shifts Gravity-Load away from Bony-Peaks, resetting the Ischemia-Timer.
LORE: Restoring perfusion. Changing the angle allows crushed capillaries to Refill-with-Oxygen.

Decubitus-the-Flesh-Eater

Pressure Ulcers

STAT: Stages 1-4
Non-blanchable erythema
to Bone-exposure

POWER: The Silent-Erosion. Strikes from the inside out, using Gravity-Pressure to kill Blood-Roads.

LORE: Ischemic tissue death. When still, Capillary-Pipes are crushed against Bone-Pillars.

Exudate-the-Dampener

Wound Care

STAT: Serous vs. Sanguinous
vs. Purulent / VAC Therapy

POWER: The Moisture-Manager. Sucks away Infection-Fluid, keeping the wound Moist-but-not-Drowned.

LORE: Promoting granulation. Needs a Tropical-Environment (Warm/Moist), but Too-Much-Swamp (Necrosis) destroys edges.

MORE SUGAR!

NEWS-the-Early-Warning

Deterioration Score

STAT: Score 0-20
RR, Sat, Temp, SBP,
HR, Consciousness

POWER: The Deterioration-Radar. Aggregates Small-Stat-Glitches to predict a System-Crash hours before it happens.
LORE: Pattern recognition. Three abnormal stats equal a Sepsis-Storm approaching.

Diagnosis?!

Aspirat-the-Silent-Choker

Aspiration Risk

STAT: 30-degree head-of-bed
Swallowing test

POWER: The Wrong-Pipe-Blocker. Ensures Food-and-Saliva go to the Gut-Arena, preventing infiltration.
LORE: Preventing Aspiration Pneumonia. Vital for Stroke-Stalls or Dementia-Baze.

Output-the-Fluid-Tracker

I/O Balance

STAT: Goal 0.5 mL/kg/hour
Fluid Balance calculation

POWER: The Balance-Guardian. Measures every Drop-In and Drop-Out to spot the Kidney-Fortress-Stall.
LORE: Fluid hemodynamics. Zero-Balance is the goal; excess Input brings Edema-the-Swelling.

Delirium-the-Reality-Warper

CAM-ICU

STAT: CAM-ICU
Acute onset

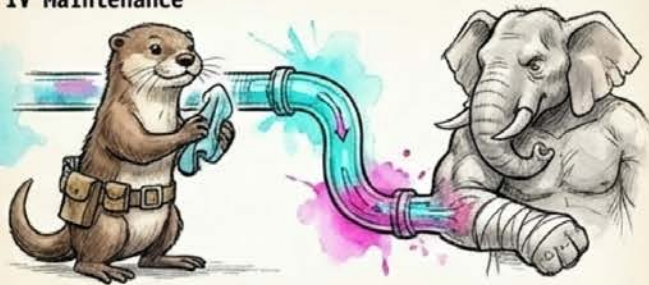

POWER: The Mind-Fog-Detection. Spots when the Wrestler begins Pulling-at-Tubes and Talking-to-Ghosts.
LORE: Acute Brain Failure. Early detection saves the brain from long-term Damage-Scars.

BLÖDSINN!

Patency-the-Line-Guard

IV Maintenance

STAT: Flush with 10mL Saline
Phlebitis Scale (0-4)

POWER: The Pipe-Protector. Ensures the Vein-Bridge is clear and hasn't Infiltrated the Tissue-Arena.

LORE: Preventing Extravasation. Leaking chemicals cause Necrosis-the-Melt.

Check-the-Five-Rights

Medication Safety

STAT: Right Patient, Drug,
Dose, Route, Time

POWER: The Error-Shield. Stops the Wrong-Chemical from entering the Wrong-Wrestler.

LORE: High-reliability organization (HRO) principles. Double-checking defeats Fatigue-the-Brain-Drain.

Pump-the-Drip-Master

Infusion Pump

STAT: mL/hr vs. mcg/kg/min
Hard Limits

POWER: The Controlled-Flow. Ensures Chemical-Ally enters Blood-River at the exact Speed-Stat.

LORE: Constant serum levels. The-Machine prevents Overdose-Overload from Human-Glitches.

Glyc-the-Sugar-Watcher

Blood Glucose

STAT: 140-180 mg/dL target
Hypoglycemia < 70

POWER: The Fuel-Monitor. Pokes the Finger-Sensor to prevent Sugar-Stat extremes.

LORE: Stress hyperglycemia. Systemic-Riot raises Sugar-Tokens even in non-diabetics.

Mobil-the-Stasis-Breaker

Early Mobility

(Messy typewriter punch-out)

STAT: Out of bed by Day 1
ABCDEF Bundle
(Rubber stamp)

POWER: The Lung-and-Leg-Opener. Forces standing to prevent Clot-the-Blocker and Moni-the-Pneumonia.

LORE: Diseases of Immobile Stasis. Gravity and movement are the best Anti-Clot medications.

"Stay fluffy!"

Fall-the-Gravity-Trap

Fall Risk

(Messy typewriter punch-out)

STAT: Morse Fall Scale
High risk > 45
(Rubber stamp)

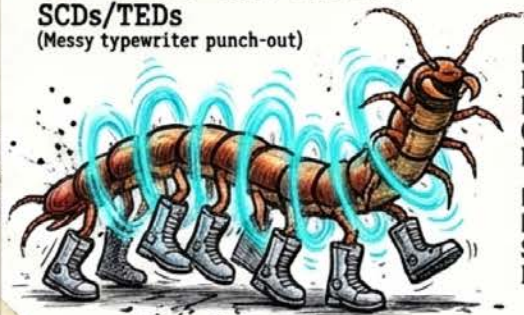

POWER: The Impact-Detector. Identifies Wobbly-Legs before they hit the Arena-Floor and break a Bone-Pillar.

LORE: Preventing secondary trauma. A Fall-in-the-Ring is often more lethal than the original injury.

Thrombo-the-Sleeve

SCDs/TEDs

(Messy typewriter punch-out)

STAT: 18 hours/day wear time
Sequential Compression
(Rubber stamp)

POWER: The Leg-Squeezer. Pulses legs to keep Blood-River moving, stopping Clot-the-Blocker from hiding.

LORE: Mimicking the Muscle-Pump. Stagnant blood breeds PE-the-Clot-Monster.

Adher-the-Partner

Compliance & Literacy

(Messy typewriter punch-out)

STAT: Understanding of therapy
Patient education
(Rubber stamp)

POWER: The Motivation-Buff. Explains the Match-Plan so the Wrestler stops Fighting-the-Orders.

LORE: Health literacy. Knowing 'why' increases intervention usage by 5x.

Foley-the-Infection-Risk CAUTI

STAT: Removal by Day 2 /
Daily necessity check

POWER: The Double-Edged-Drain.
Empties the Reservoir but gives
Bacteria-Punks a Ladder to the
Kidney-Fortress.

LORE: Catheter-Associated
UTI. The longer the
Drain-Snake stays, the
higher the Sepsis-
Storm risk.

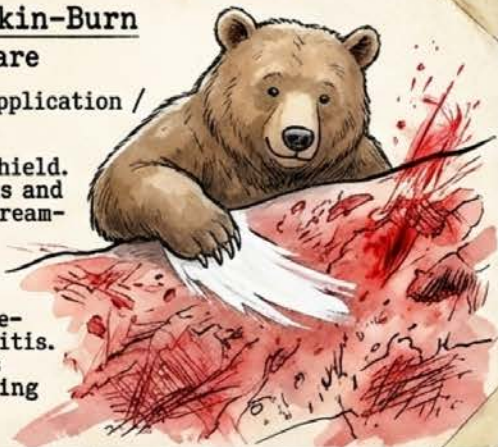

Inconti-the-Skin-Burn Incontinence Care

STAT: Skin-prep application /
Frequent checks

POWER: The Acid-Shield.
Cleans Waste-Leaks and
applies Barrier-Cream-
Armor to stop
melting.

LORE: Incontinence-
Associated Dermatitis.
Ammonia-Acid eats
Skin-Armor, inviting
Infection-Ian.

Bristol-the-Stool-Judge Bowel Motility

STAT: Type 1 (Hard)
to Type 7 (Liquid)

STAT: Type 1 (Hard) to
Type 7 (Liquid)

POWER: The Motility-
Reporter. Alerts the team
before Sloth-the-Slow-
Gut causes a Bowel-Block.

LORE: Opioid-induced
constipation.
Pain-Meds freeze the
Gut-Arena, leading to
Toxic-Back-up.

KayfaBIZARRO!

Bladder-the-Residual-Scanner Urinary Retention

STAT: PVR > 200mL = Red Flag

POWER: The Hidden-Pool-Finder.
Uses Sonic-Rings to see
if the Reservoir
is still half-full.

LORE: Urinary
retention. Retained
Fluid-Tokens grow Bac-
teria-Punks and cause
Hydro-High-Pressure.

What the FLUFF?!

Incentive-the-Bellows Spirometer

(Messy typewriter punch-out)

STAT: 10 breaths every hour
Goal based on height/age
(Rubber stamp)

POWER: The Alveoli-Pop.
Forces a Deep-Vast-Breath
to pop open Collapsed-Lung-
Balloons (Atelectasis).

LORE: Preventing Post-Op-
Pneumonia. Exercises the
Diaphragm-Engine and
clears Mucus-Gunk.

Suction-the-Gunk-Grabber Airway Clearance

(Messy typewriter punch-out)

STAT: Endotracheal or Oral
Pressure 80-120 mmHg
(Rubber stamp)

POWER: The Airway-Clearer.
Vacuums Mucus-Sludge
blocking the Oxygen-Flow
in the Windpipe-Tunnel.

LORE: Maintaining patency.
Gunk becomes a Nursery for
Bacteria-Punks and blocks
Gas-Exchange.

O2-the-Flow-Setter Oxygen Therapy

(Messy typewriter punch-out)

STAT: 2L NC vs. 15L NRB
vs. High Flow
(Rubber stamp)

POWER: The Atmospheric-
Buff. Increases Oxygen-
Percentage so Red-Cell-
Trucks load more fuel.

LORE: Correcting Hypoxia.
Warning: Too much
Oxygen-Fire can stop the
Drive-to-Breathe in
COPD-Chris.

CPAP-the-Pressure-Wall Positive Pressure

(Messy typewriter punch-out)

STAT: 5-15 cm H2O
PEEP
(Rubber stamp)

POWER: The Balloon-Support.
Uses Constant-Air-Pressure
to stop Lung-Balloons from
snapping shut.

LORE: Improving oxygenation.
Stints airways open
and pushes Drown-Water
back into the Blood-River.

NRS-the-Pain-Meter

Pain Assessment

STAT: 0-10 Scale
Faces scale for kids

POWER: The Subjective-Signal. Translates the Wrestler's-Internal-Scream into a number for Pharmacology-Dose.

LORE: The Fifth-Vital-Sign. "Pain is whatever the patient says it is," driving the Comfort-Match.

PCA-the-Demand-Button

Patient Controlled Analgesia

STAT: Lockout interval
Basal rate vs. Bolus

POWER: The Self-Dose-Trigger. Allows the Wrestler to summon a Pain-Mute-Ally when the Scream-Stat spikes.

LORE: Autonomy in pain control. Keeps the wrestler ahead of the Nociceptor-Alarm.

Anxie-the-Restless-Wind

Anxiety/Agitation

STAT: HR rise
Tachypnea
Restlessness

POWER: The Energy-Drainer. Forces the Wrestler to hyper-ventilate and waste Energy-Tokens on fear.

LORE: Sympathetic over-drive. Anxiety mimics Physical-Pain and respiratory distress, confusing the Diagnostic-Engine.

Digni-the-Privacy-Shield

Holistic Care

STAT: Curtain use
Covered transport

POWER: The Human-Armor. Protects the Mind-Armor from being broken by the Hospital-Machine.

LORE: Holistic care. Preserving dignity accelerates healing and boosts the Adherence-Stat.

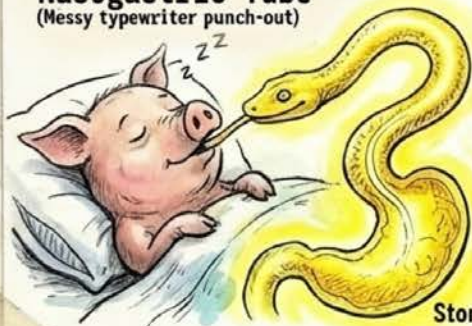

Shhh!

Scream

What the FLUFF?!

NG-the-Feeding-Snake Nasogastric Tube (Messy typewriter punch-out)

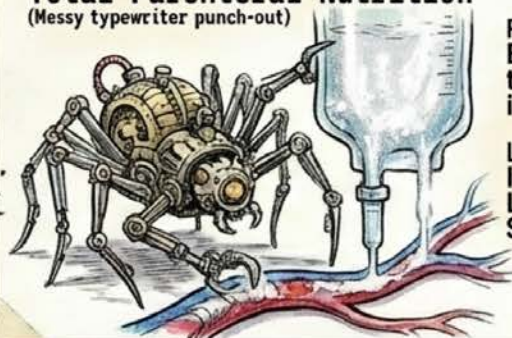

Stomach-Basin

STAT: pH check for placement
Residual volume check
(Rubber stamp)

POWER: The Direct-Fuel-Line. Bypasses the Mouth-Gate to deliver Liquid-Energy-Tokens.

LORE: Enteral Nutrition. "If the gut works, use it." Keeps Gut-Wallpaper alive and prevents Bacteria-Translocation.

TPN-the-Blood-Feast Total Parenteral Nutrition (Messy typewriter punch-out)

STAT: Central line access
Daily weight / High sugar risk
(Rubber stamp)

POWER: The Intravenous-Buff. Delivers Everything-the-Body-Needs directly into the Blood-River.

LORE: High risk. Beware Infection-lan in the Line-Bridge and sudden Sugar-Stat-Glitches.

MedKayfabe!

Dysphag-the-Choke-Risk Altered Swallows (Nessy typewriter punch-out)

STAT: Thickened liquids
Speech-Pathology consult
(Rubber stamp)

POWER: The Texture-Modifier. Turns Water-Tokens into Honey-Sludge to stop leaks into Lung-Balloons.

LORE: Altered swallow mechanics. Thicker fluids move slower, giving the Epiglottis-Gate time to close the Airway-Tunnel.

Albu-the-Protein-Vault Nutritional Status (Messy typewriter punch-out)

STAT: Serum Albumin levels
/ BMI / Weight loss %
(Rubber stamp)

POWER: The Repair-Material. Provides the Bricks needed to fix the Wrestler-Frame.

LORE: Nutritional status. Low Albumin means Body-Storage is empty; the Healing-Clock stalls.

RRT-the-Rapid-Response-Team Early Intervention

STAT: Triggered by NEWS > 5
or Gut-Feeling-Doubt

POWER: The Backup-Brawl. The Elite-Squad called in to fix the Match before the Code-Blue-Siren.

LORE: Early intervention. Prevents the Cardiac-Halt by catching Hypoxia or Sepsis early.

CPR-the-Manual-Pump Compressions

STAT: 100-120
compressions/minute
/ 2-inch depth

POWER: The Hand-Powered-Heart. The Care-Strategist becomes the Pump, physically forcing blood to the Brain.

LORE: Maintaining perfusion. Without pumping, the Oxygen-Tank empties in 4 minutes.

Code-the-Final-Siren Code Blue

STAT: Pulselessness /
Apnea / Defibrillation time

POWER: The Resurrection-Attempt. The Ultimate-Emergency using Electric-Smashes and Chest-Pushes to Reboot-the-Engine.

LORE: Cardiac Arrest protocol (ACLS). Every second of Halt-Time starves the Brain-Bunker.

KayfaBONGO!

Defib-the-Electric-Shock Defibrillation

STAT: 200-360 Joules
/ Clear! call

POWER: The System-Reset. A Massive-Lightning-Bolt stops the Chaos-Quiver (V-Fib) so the SA-Node-Drummer regains control.

LORE: Depolarizing the myocardium to restart a coordinated rhythm.

Chlo-the-Skin-Cleaner

CHG Bath

STAT: 2% or 4% Chlorhexidine
/ Pre-op or Daily ICU

POWER: The Pathogen-Slayer. Kills Bacteria-Punks on the Skin-Armor before they infiltrate the Incision-Breach.

LORE: Reducing Bioburden. CHG leaves a Residual-Kill shield lasting 24 hours.

Oral-the-Vent-Guard

Mouth Care

STAT: Q4H cleaning
/ Suction toothbrush

POWER: The Pneumonia-Prevention. Scrubs the Mouth-Arena so Bacteria-Punks can't drip down the Vent-Tube.

LORE: Preventing VAP. The mouth is the primary Nursery for lethal ICU lung infections.

Perineal-the-Basin-Guard

Infection Prevention

STAT: Cleaning after
every Waste-Leak
/ Front-to-back

POWER: The U-Storm-Protector. Keeps the Lower-Exit-Arena clean to stop Fecal-Bacteria-Punks from migrating.

LORE: Preventing UTIs. Proper Clean-Moves are the first line of defense against ascending infections.

Bed-the-Environment-Reset

Linen Changes

STAT: Linens changed
daily / No wrinkles

POWER: The Comfort-and-Skin-Buff. Ensures the Arena-Floor is Wrinkle-Free to prevent Shear-Friction-Burns.

LORE: Maintaining skin integrity. A Dirty-Wet-Arena grows Bacteria-Punks and breaks Skin-Armor.

FLACC-the-Baby-Scanner

Pediatric Pain Scale

STAT: Face, Legs, Activity, Cry, Consolability

POWER: The Non-Verbal-Translator. Watches the Baby-Wrestler's physical cues to gauge the Internal-Scream.

LORE: Pediatric pain assessment. Turns Behaviors into Stat-Numbers to drive the Comfort-Move.

Parent-the-Co-Wrestler

Family Centered Care

STAT: Anxiety level / Presence at bedside

POWER: The Anchor-Buff. Provides a Security-Shield that neutralizes the Baby-Wrestler's fear.

LORE: Reducing trauma. Healing accelerates when the Social-Anchor is in the ring.

Hydra-the-Bottle-Check

Pediatric Fluid Status

STAT: Wet diapers / Tear production / Fontanelle

POWER: The Liquid-Level-Radar. Checks if the Baby-Wrestler is Drying-out.

LORE: Pediatric fluid balance. Small Fluid-Tanks mean they Crash-from-Drying faster than adults.

Distract-the-Bubble-Master

Non-Pharm Pain Relief

STAT: Non-pharmacological pain relief

POWER: The Brain-Bunker-Hack. Uses Bubbles/Toys so the brain doesn't register the Needle-Strike Pain-Signal.

LORE: Gate Control Theory. Flooding the brain with Fun-Signals Closes-the-Gate on Pain-Signals.

Stay fluffy!

Gerithe-Skin-Tear-Check

Atrophic Skin

STAT: ISTAP classification
/ Paper-thin skin

POWER: The Fragility-Shield.
Treats Silver-Wrestler
skin like Wet-Tissue-Paper,
using only Silicone-Tape
to prevent Tape-Rips.

LORE: Atrophic skin.
The Skin-Armor loses its
Glue, peeling with slight
Friction.

Wandthe-Exit-Alarm

Wandering / Elopement

STAT: Safety-locks /
Bed alarms /
Identity bracelets

POWER: The Arena-
Boundary-Guard. Ensures
the Dementia-Daze
wrestler doesn't wander
into the Danger-Zone.

LORE: Patient safety.
Forgetting where the
Ring is can lead straight
into a Cold-Trauma-
Match.

Polythe-Pill-Auditor

Polypharmacy

STAT: Beers Criteria
/ Medication reconciliation

POWER: The Interaction-
Scanner. Finds the
Chemical-Saboteurs in the
Bag-of-Pills causing
Daze-Confusion.

LORE: Adverse drug events.
Slow-Kidney-Filters allow
medications to build up to
Toxic-Levels.

Digni-the-Silver-Voice

Geriatric Autonomy

STAT: Respect for life-
story / Choice-giving

POWER: The Sovereignty-
Buff. Reminds the team
the Silver-Wrestler is a
Veteran who chooses their
own Care-Moves.

LORE: Promoting autonomy.
Respecting a Wrestler's-Will
reduces Agitation-Fights
and boosts Quality-of-Life-
Stats.

Pallia-the-Comfort-Shield

Palliative Care

STAT: Symptom control
Pain, Dyspnea,
Anxiety

POWER: The Pain-Banish-Move. Stops the Fight-to-Cure and begins the Fight-for-Comfort for the Final-Round.

LORE: Quality of life. When the Timeline-Clock runs out, Stats change from Survival-Length to Comfort-Depth.

Secret-the-Death-Rattle-Halt

Terminal Secretions

STAT: Hyoscine or
Glycopyrrolate
Repositioning

POWER: The Silence-Guard. Stops the Rattle-Sound so the Family-Team isn't terrified by the noise of the Final-Round.

LORE: Reducing secretions. It heals the Family's-Mind-Armor, as the Wrestler is usually asleep.

Dysp-the-Fan-Breeze

Terminal Breathlessness

STAT: Low-dose Morphine
Cool air
Calming voice

POWER: The Airway-Calm. Uses a Cool-Breeze and Small-Blue-Ally-Meds to tell the Brain-Bunker it's okay to breathe slowly.

LORE: Terminal dyspnea. A Simple-Fan on the face is often a stronger Power-Move than an Oxygen-Tank.

Final-the-Vigil-Watcher

End of Life Care

STAT: Emotional support
Presence at death

POWER: The Never-Alone-Buff. Stays in the Ring for the Final-Bell so the Wrestler doesn't face the Void alone.

LORE: Compassionats presence. The ultimate duty of the Care-Stratgist is to witness the End-of-the-Story with respect.

SBAR-the-Signal-Relay Clinical Communication

STAT: Situation,
Background, Assessment,
Recommendation

POWER: The Data-Burst.
Compresses Match-Chaos into a
Precise-Logic-Burst for the
Physician-Detective.

LORE: Standardized communication.
Defeats arena Noise and ensures
Critical-Stats are heard.

Team-the-Huddle-Check Interdisciplinary Sync

STAT: Safety huddles /
Shared goals

POWER: The Arena-Sync. A 5-minute Tactical-Meeting to ensure
everyone is fighting the same Antagonist.

LORE: Reducing Information-Silos. Synced Team-Stats win
more matches.

Ethic-the-Moral-Compass Patient Advocacy

STAT: Patient advocate
/ Conflict resolution

POWER: The Right-Path-Seeker. Protects the Wrestler's-Will
from being ignored by the Hospital-Machine.

LORE: Advocacy and Ethics. The Care-Strategist is the
primary Guardian of personal values.

Fatigue-the-Burnout-Shadow Human Factors

STAT: 12-hour shifts /
High-stress environment

POWER: The Vigilance-Drain. Makes the Strategist
Miss-the-Small-Signal and Skip-the-Double-Check.

LORE: Human factors in safety. A Tired-Strategist is a
Dangerous-Strategist. Self-Care-Moves banish the Shadow.

The Nursing Attending (Doc FrizzleBob) Master of Continuity Vigilance Supreme.

"The Doctor makes the plan, but the Nurse wins the match. Watch the skin, watch the flow, and never take your eyes off the monitor! Stay fluffy!"

The Sepsis-Sentinel Synthesis

Scenario: Wrestler has a NEWS-Radar of 6. Urine-Output stalled. Daze-Confusion starting.

Solution Map: Identify Antagonist-Invasion (Sepsis) -> Use Signal-Relay (SBAR) -> Call Emergency-Brawl (RRT).

The Medication-Safety-Lock Synthesis

Scenario: Delivering high-power Chemical-Ally (Insulin) while fighting the Burnout-Shadow on hour 11.

Solution Map: Raise the Error-Shield (Five-Rights) -> Call Tag-Team-Partner for a Double-Check-Move.

The Pressure-Prevention Synthesis

Scenario: Unconscious wrestler with Paper-Thin-Skin trapped in a Stasis-Match for 4 hours.

Solution Map: Deploy Braden-the-Scouter -> Find Vulnerability-Stats -> Play Pivot-the-Positioner.

**MEDKAYFABE
MASTERED!**
