(Now with 30% More Existential Dread!)

VERSION

UNSTABLE

DANGER: Contains
Epistemic Hazards!

Scissor logic applies!

THE CAVE MYTH

[R:5]

[A:2]

[F:1]

Power: Shadow Play: Force another player to accept your description of a card as truth until end of turn.

Lore: Myth solved the coordination problem. Tell them a story about where they came from, make it sacred, and make questioning it dangerous.

It's not a bug,
it's a feature!

THE TRIBE

[R:6]

[A:4]

[F:1]

Power: In-Group Bias: Discard a card to ignore any effect from a player not in your 'alliance'.

Lore: The tribe is the first state. Its ideology is simple: In-group is sacred; Out-group is profane. We don't need a reason to discriminate.

THE SHAMAN

[R:3]

[R:3]

[A:5]

[F:6]

Power: Gatekeeper: You interpret the dice roll. Change a [1] to a [5] or vice versa once per game.

Lore: The first ideological professional. He mediates between the human and the divine. He controls the narrative, so he controls the tribe.

It's not a bug,
it's a feature!

Us vs. Them =
40,000 years
of fun.

THE TABOO

[R:4]

[R:4]

[A:1]

[F:1]

Power: Social Death: Ban a specific word. Anyone who says it loses a card.

Lore: The original cancellation. Not a law, but a boundary. Cross it, and you threaten the fabric of reality itself.

THE PHARAOH

[R:6]

[A:6]

[F:1]

Power: God-King: Your commands are natural law. Re-roll any die result that displeases you.

Lore: Not a metaphor. A governance technology. His will is indistinguishable from the movement of the sun.

KayfaBINGO!

HAMMURABI'S CODE

[R:5]

[A:6]

[F:1]

Power: Written in Stone: Lock a Scene card. It cannot be moved, changed, or covered for 2 turns.

Lore: The political made sacred. Don't question the law, because the sun god wrote it. The first "Terms of Service".

THE HIEROPHANT

[R:2]

[A:5]

[F:2]

Power: Mediator: Look at the top 3 cards of the deck. Arrange them in the order that benefits you.

Lore: Knowledge/Power. The priests read the stars and interpret the gods. The first bureaucracy of meaning.

THE SCAPEGOAT

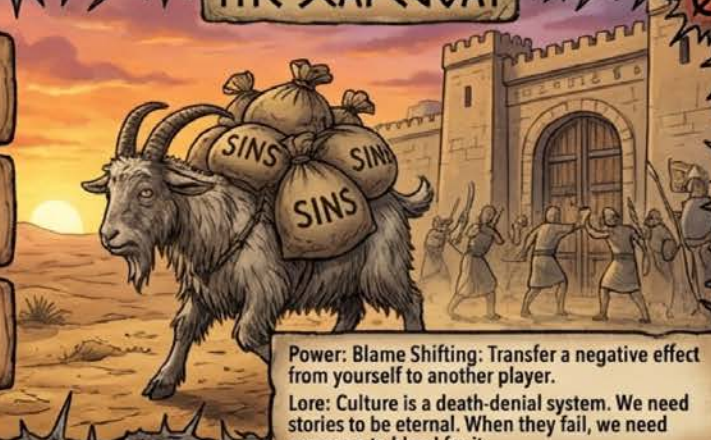

[R:6]

[A:1]

[F:1]

Power: Blame Shifting: Transfer a negative effect from yourself to another player.

Lore: Culture is a death-denial system. We need stories to be eternal. When they fail, we need someone to bleed for it.

SOCRATES

[R:4]

[A:2]

[F:6]

Power: "The Question: Demolish a player's Story by asking 'Define your terms.' They must discard a card.
Lore: He didn't deliver a system; he demolished them. Epistemological sabotage has consequences. Usually execution."

It's all Greek to me.

It's all Greek to me.

THE SOPHIST

[R:2]

[R:4]

[A:4]

DIVINE RIGHT

[R:5]

[A:6]

[F:1]

Power: Monopoly on Meaning: Cancel another player's move. Cite "God's Will."

[A:4]

[A:1]

[A:3]

[F:1]

[F:5]

Power: "Schism: Split the Quest Die into two separate dice. The narrative now has two conflicting goals."
