

MedKayfabe!

Call Doc Frizzle!

ORTHOPAEDICS & TRAUMA: THE KINETIC CHAOS

Fixing the frame, one bolt at a time.

01

Osteo-Blast & Blast

The Builders

STAT: Callus formation

POWER: The Bridge-Builders.

LORE: Wolff's Law: No stress = weak bone; too much stress = bridge snaps.

03

Compartment-Chris

The Crusher

STAT: 6 P's

POWER: The Fascial Vice.

LORE: Surgical emergency! Needs a Fasciotomy-Flight to let muscles breathe.

02

Salter-Harris Sam

The Growth-Slayer

STAT: S-A-L-T-R
(Types I-V)

POWER: The Child-Chassis Break.

LORE: Type II most common; Type V (Crush) stops growth forever.

04

Non-Union Ned

The Nomad

STAT: No healing > 6 months

POWER: The False Joint.

LORE: Caused by Biological Bankruptcy or Mechanical Anarchy.

05

Colles-the-Fork

Distal Radius

STAT: Dinner-fork deformity

POWER: The FOOSH-Fall.

LORE: Back-of-the-wrist snaps. Watch for Median-Nerve-Max getting pinched.

07

Humerus-Hank

The Nerve-Bait

STAT: Mid-shaft fracture /
Radial Nerve palsy

POWER: The Wrist-Drop.

LORE: Nerve wraps the middle. Fraying means the wrestler can't Thumbs Up.

06

Scaphoid-Scott

The Bloodless

STAT: Anatomical Snuffbox
/ Retrograde flow

POWER: The Invisible Break.

LORE: Hides for 10 days on X-ray. Waist breaks starve the bottom half (AVN).

08

Shoulder-Shifting-Sid

Dislocation

STAT: Anterior (95%)

POWER: The Squared-Off Look.

LORE: Tears the Bankart-Bumper. Axillary-Nerve hits make deltoid go dark.

Cauda-Equina-Caleb

STAT: Saddle anesthesia
Bladder dysfunction

Nerve Squash

POWER: The Nerve-Bundle Squash.

LORE: 911 emergency! Delay increases risk of permanent Diaper-Wrestling.

Open-Book-Oliver

STAT: Symphysis
Diastasis > 2.5cm

Pelvic Ring

POWER: The Volume-Expander.

LORE: A Pelvic Binder is the only thing that closes the book to stop internal bleeding.

Hip-Fracture-Hilda

STAT: Shortened &
Externally Rotated leg

Femoral Neck

POWER: The Granny-Snap.

LORE: Intracapsular neck fractures kill blood supply to the ball (Emergency Screws).

Disc-Danny

STAT: L4-L5/L5-S1
(+) Straight Leg Raise

The Herniator

POWER: The Shooting Spark.

LORE: The Sciatic-Scream. Most retract, some need the Micro-Discectomy-Vacuum.

Diagnosis?!

13

ACL-A1 The Pop

STAT: Lachman (+)
Pop sound

POWER: The Pivot-Shift.

LORE: A1 doesn't heal on his own. Needs a Hamstring-Graft-Rebuild to return to the ring.

14

Meniscus-Manny The Locking

STAT: McMurray (+)
Joint line tenderness

POWER: The Jammed Hinge.

LORE: Knee clicks/locks. The inner edge has no blood and won't heal itself.

KayfaBOGGLE!

15

Tib-Fib-Terry The Boot-Break

STAT: High risk of
Compartment-Chris

POWER: The Shaft-Snap.

LORE: Heavy-duty breaks. Kings of the IM-Nail-a titanium rod down the center.

16

Achilles-Arthur The Gunshot

STAT: Thompson (+)
Heel gap

POWER: The False Shot.

LORE: Feels like a gunshot. The strongest tendon gives up; wrestler can't stand on toes.

Greenstick-Gary

STAT: Partial fracture
Intact periosteum

Incomplete Break

POWER: The Bend-and-Snap.

LORE: Kid bones are rubbery. Gary sometimes needs to be Completed to heal straight.

Nursemaid-Nancy

STAT: Arm held in
pronation

Radial Head Subluxation

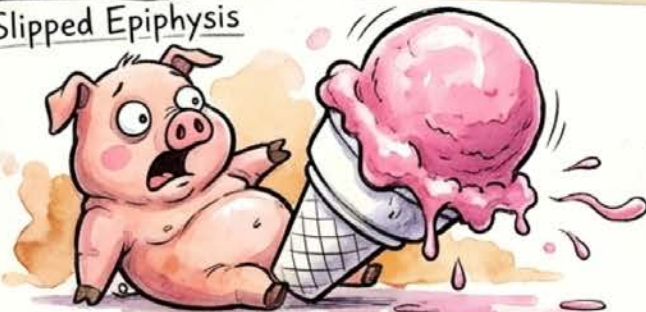

POWER: The Annular-Tear.

LORE: The Supination-Flexion-Flip pops the ligament back and cures Nancy instantly.

SCFE-Scottie

STAT: Obese adolescent
Ice Cream falling

Slipped Epiphysis

POWER: The Sliding Ball.

LORE: Ortho emergency! If Scottie keeps sliding, the hip dies. Needs a Single-Screw-Stop.

Hip-Dysplasia-Dot

STAT: Ortolani & Barlow
Clunking hips

DDH

POWER: The Shallow Socket.

LORE: Needs the Pavlik-Harness-Hug to force the ball in so the cup grows deep.

21

Plate-and-Screw Pete

DCP

STAT: Dynamic
Compression /
Absolute Stability

POWER: The Rigid Fix.
LORE: Heals by Primary Intent (no callus).
King of smooth articular fractures.

22

IM-Nail-Nate

Intramedullary Nail

STAT: Load-sharing
device

POWER: The Internal Scaffolding.
LORE: Shares weight with the bone; encourages
Callus-Chris to build around him.

KayfaBIZARRO!

23

External-Fixator-Ed

Damage Control

STAT: Pins-and-Bars

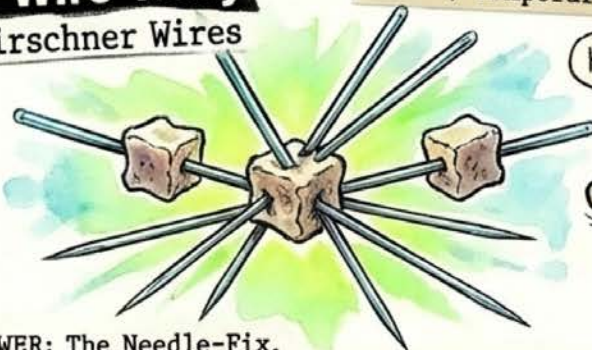

POWER: The Scaffold-Outside.
LORE: Used when skin is too Angry (swollen/infected)
for plates. Holds the fortress.

24

K-Wire-Kelly

Kirschner Wires

STAT: 1.0mm - 2.5mm
/ Temporary

POWER: The Needle-Fix.
LORE: Used for tiny bones or holding pieces for
Pete. Pulled out with pliers later.

KayfaBIZARRO!

GW

Georg v. Westphalen

25

Arthritis-Artie**The Grinder**

STAT: Joint space
narrowing / Osteophytes

POWER: The Bone-on-Bone.
LORE: Artie eats the Cartilage-Cushion. End-stage wear-and-tear requires Joint Rebellion.

26

Total-Hip-Holly**Arthroplasty**

STAT: Ceramic on
Polyethylene

POWER: The New Foundation.
LORE: Most successful op in history. Restores Range of Motion instantly.

HUMBUG!

27

Total-Knee-Ken**Arthroplasty**

STAT: Femoral Component
+ Tibial Tray

POWER: The Surface-Resurfacer.
LORE: Caps the ends of bones. Alignment is everything; if crooked, limp forever.

Loosening-Larry**Failure**

STAT: Radiolucent lines
/ Pain returns

POWER: The Shake-Up.
LORE: Bone around the wobble melts (Osteolysis). Needs a Revision-Rebuild.

29 Rotator-Cuff-Ray Shoulder Tendons

STAT: SITS muscles
(Supraspinatus torn most)

POWER: The Wing-Drop.
LORE: Wrestler can't hold their shield up. Common in overhead athletes.

30 MCL-Mitch Medial Collateral

STAT: Valgus stress test (+)

POWER: The Side-Slump.
LORE: The Friendly Ligament with good blood supply. Usually heals with a brace.

31 Carpal-Tunnel-Carl Median Nerve Compress

STAT: Phalen's (+)/
Tinel's (+)

POWER: The Midnight-Numb.
LORE: Numbness in first 3 fingers. Needs a Roof-Release (cut Flexor Retinaculum).

32 Tennis-Elbow-Tom Lateral Epicondylitis

STAT: Pain at
ECRB origin

POWER: The Backhand-Burn.
LORE: Not inflammation, but Angiofibroblastic Tendinosis (failed micro-tears).

33 Septic-Joint-Sgt

STAT: WBC > 50,000 /
Fever

Infection

POWER: The Cartilage-Melter.

LORE: Destroys a hip in 24h. Needs Washout-Wilfred to flush with gallons of saline.

35 Cauda-Equina-Caleb

STAT: Perianal numbness
/ Acute sciatica

Redux

POWER: The Saddle-Squeeze.

LORE: If they can't pee, it's an emergency!
Decompress < 48 hours or paralysis.

34 Fat-Embolism-Felix

STAT: Triad: Hypoxia,
Confusion, Petechiae

Marrow Escape

POWER: The Marrow-Migration.

LORE: The reason we fix femurs fast. If Felix hits lungs, it's a battle for oxygen.

36 Open-Fracture-Ophelia

STAT: Gustilo-Anderson
(I, II, III)

Compound

POWER: The Bone-Breach.

LORE: An Infection-Magnet. Needs IV antibiotics instantly and multiple washouts. Never close primarily!

MedKayfabe!

37 Osteo-Porosis-Pam

Bone Loss

STAT: T-score < -2.5
DEXA Scan

POWER: The Silent Swiss-Cheese.
LORE: Imbalance of Builders vs. Crushers. Bisphosphonates are the counter-spell.

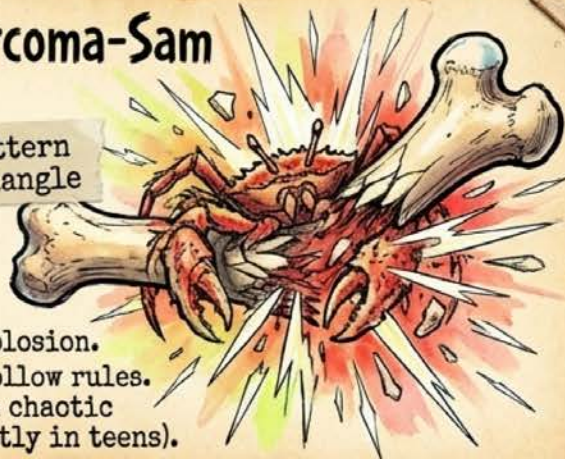

38 Osteo-Sarcoma-Sam

Malignancy

STAT: Sunburst pattern
Codman's Triangle

POWER: The Sun-Explosion.
LORE: Sam doesn't follow rules.
Grows New Bone in a chaotic sunray pattern (mostly in teens).

39 Ewing's-Ernie

Tumor

STAT: Onion-skinning
11:22 translocation

POWER: The Layered-Assault.
LORE: A small-round-blue-cell tumor. Loves the Diaphysis (shaft) of long bones.

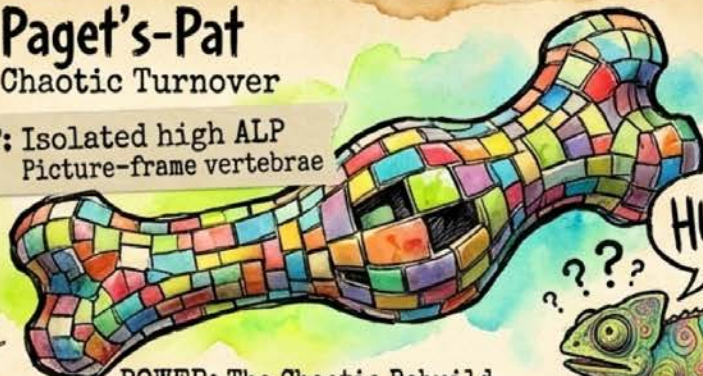

40 Paget's-Pat

Chaotic Turnover

STAT: Isolated high ALP
Picture-frame vertebrae

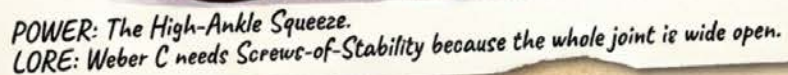

POWER: The Chaotic Rebuild.
LORE: Bone becomes huge but wobbly.
Can lead to High-Output-Heart-Failure.

HUMBUG!

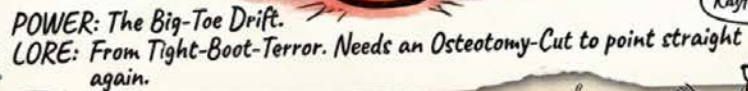

41 Weber-the-Ankle-Wrench

STAT: Weber A (Below),
B (At), C (Above)

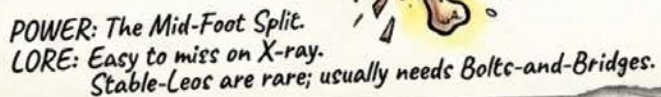

Hallux-Valgus-Hal

STAT: Great toe
angled outward

Lisfranc-Leo

STAT: Widening 1st/2nd
metatarsal / Pleck Sign

Plantar-Fasciitis-Phil

STAT: First Step in the Morning pain

45 Cefazolin-Cef

STAT: 1st Gen Cephalosporin
/ Give < 60 mins

Prophylaxis

POWER: The Surgical Shield. **LORE:** In Ortho, Biofilm-is-Death. The most important card to prevent a Septic-Slam.

47 Bisphosphonate-Ben

STAT: Alendronate

Osteoclast Inhibitor

POWER: The Clast-Muzzle. **LORE:** Muzzles the Bone-Crushers. Beware Jaw-Necrosis-Jinx. Makes bone thick but brittle.

46 Lovenox-Lenny

STAT: Low Molecular
Weight Heparin (LMWH)

DVT Defense

POWER: The Clot-Cutter. **LORE:** Ortho patients are Hypercoagulable. Lenny is the law for 14-35 days post-op.

48 Morphine-Monty

STAT: Opioid agonist /
Titrate to effect

Pain Control

POWER: The Heavy-Duty Numb. **LORE:** Slows breath/gut. Use for the Surgical-Storm, then switch to Irene-Ibuprofen.

49

The C-Arm-Scribe Fluoroscopy

STAT: Intra-operative
Imaging

POWER: The Live-Action-X-Ray.

LORE: Lets the surgeon see the Nate-Nail sliding into place in real-time.

50

The Neuro-Vascular-Bundle Anatomy

STAT: Nerve, Artery,
Vein (NAV)

POWER: The Survival-Line.

LORE: Always check distal pulse! If the bone is fixed but the foot is cold, you lose.

MICRO-STORIES
WITH PLAYING WITH
IN SURGEONS.

WHAT SF NTY
DO SUREOK.

GW Georg v. Westphalen

51

The AO-Philosophy Method

STAT: Reduction, Fixation,
Preservation, Motion

POWER: The Bone-Code.

LORE: The 4 commandments. Break the code, and the bone will never heal.

52

The Fat-Pad-Sign Occult Fracture

STAT: Dark shadow
on elbow X-ray

POWER: The Hidden-Fracture-Finder.

LORE: Fat pushed out means Blood-in-the-Joint. Even if unseen, the bone is cracked.

The Orthopaedic Attending

Doc FrizzleBob

STAT: Board Certified / Master of the Mallet

Synthesis Quest 1 The Outstretched Fall

STAT: Patient Case

POWER: The FOOSH.

LORE: Quest: Identify Colles-the-Fork.

Fix: Sugar-Tong-Splint or Plate-and-Screw-Pete.

Synthesis Quest 2 The Silent Crush

STAT: Patient Case

POWER: The Frame-Fixer.

LORE: Reduction, Fixation, Mobilization. Why are you still holding the drill? Stay fluffy!

LORE:

Quest: Identify Compartment-Chris.
Action: Emergency Fasciotomy-Flight.

Synthesis Quest 3 The Snapping Pop

STAT: Patient Case

POWER: The Twist.

LORE:

Quest: Identify ACL-A1.
Action: Perform Lachman-Test to confirm.

Diagnosis?!
STAY FLUFFY!

END OF LINE.
